algebra tutor phoenix: Educational Technologies for Teaching Argumentation Skills

Niels Pinkwart, Bruce M. McLaren, 2012 Considerable efforts have been made in developing and assessing educational technology to support and teach argumentation. These efforts have culminated in the form of techniques which include Intelligent Tutoring Systems and Computer Supported Collaborative Learning. Many of these techniques have been shown to be effective for specific argumentation domains. At the same time, the general design problem of how to support a learner's acquisition of argumentation skills through computer aided tools has not yet been perfected. This e-book presents a collection of current approaches in educational technologies for argumentation. Technological approaches underlying successful argumentation systems are presented, along with their relation to the success of these tools.

algebra tutor phoenix: *ELPASO* Benjamin Villegas, 2021-08-17 In 2015, Benjamin Villegas traveled to Texas in an attempt to write the biography of a music group that could have changed the history of rock: ELPASO, a Chicano band from the U.S.-Mexico border with a punk sensibility, a long since-defunct crew, and little left to remember it by but a suitcase of fanzines and one-off recordings. This is the story of one of the many bands that will never appear in rock n' roll history books, but is at the core of the scene; a band that earned its stripes from sweaty fans and self-taught rock aficionados in basements, garages, and small venues across the country. This is the story of two kids who came together to embrace the punk ethos of the 80's and be a part of the rock n' roll revolution sweeping the US, a world of the Ramones, Black Flag, and, of course, ELPASO.

growing pains, adjusting to new times and places, family responsibilities, community involvement, along with some significant historical happenings that have taken place in the Mormon Colonies over a period of 80+ years. Sit back, relax, laugh with me, and perhaps scratch your head a little as I often do regarding some of the things we see and deal with as we continue to live happily in this little remote valley in northwestern Chihuahua, Mexico! It's a great life!
