anatomy of a stalker podcast: Anatomy of a Medically Abusive Childhood Candace Ahalse, 2024-06-22 Have you ever been in contact with a medical or Munchausen by proxy abuser? Are you sure? Have you ever been in a traffic accident, a school lockdown, an office lockdown, an infrastructure failure, a fire, or a power outage? Have you ever been burglarized, stalked, falsely accused of a crime, falsely accused of a scandal, or catfished? Have you ever had your property vandalized, your car sabotaged, your property stolen, or your pets stolen? Have you ever been conned, swindled, or taken advantage of? Have you ever gotten food poisoning? If the answer to any of these questions is yes, you may have been in contact with a MBP abuser. MBP abusers sometimes engage in a wide range of behaviors that extend far beyond the medical field. Certainly, not all such incidents are evidence of MBP, just like not all illnesses are evidence of MBP, but have you ever sensed that something more was going on in a particular case? Have you ever noticed the same person connected to multiple such incidents? In *Anatomy of a Medically Abusive Childhood*, Candace Ahalse takes you through one such case - the case of her own childhood.
