anatomy of a scandal trailer: Brown Faces, White Spaces Latasha Morrison, 2025-06-03 ECPA CHRISTIAN BOOK AWARD FINALIST • The New York Times bestselling author of *Be the Bridge* calls people of faith to be a part of lasting change and help heal the racial disparity in our country—together. “A journey that encourages us to love our neighbors in real time as we understand the history that has shaped us.”—Terence Lester, PhD, founder of Love Beyond Walls We might think of systemic racism as an unfortunate part of American history, something that happened back in the day. But the systems were never truly dismantled in our country, leaving artifacts of injustice that continue to affect every aspect of life for Black and Brown Americans. Many of us feel overwhelmed by the problem, unsure how we can make a difference. Yet God calls the church to stand firmly committed to racial reconciliation—and for each one of us to make choices that lead to healing. In *Brown Faces, White Spaces*, Latasha Morrison—a speaker, bridge builder, and champion for unity—explores nine aspects of American life where systemic racism still flourishes, including education, healthcare, the justice system, entertainment, and the church. Through story, historical context, and present realities, Morrison looks at what it means to recognize and confess the truth about inequities in the system (preparation), commit ourselves to changing the system (dedication), and move into true freedom as a society (liberation). Drawing on rich sociological insights, as well as experiences of family and friends and from her own life, Morrison asks: How does knowing our country’s history make a difference in how we live today? How does Jesus’s divine act of reconciliation on the cross lead to human liberation from oppression? How might we create systems for all to flourish? This honest, hope-filled book shows us how we can reform historically white spaces and create systems that work for the good of all. Join the bridge-building movement that is listening, learning, and working together for equity in every aspect of our lives. Includes questions for personal reflection and group discussion.

anatomy of a scandal trailer: *Women in Media* Amy M. Damico, 2022-07-08 This title provides a broad overview of how women are portrayed and treated in America's news and entertainment industries, including film, television, radio, the internet, and social media. This book provides a one-stop resource for understanding the participation and representation of women in the U.S. media in such areas as narrative film, scripted television programming, advertising, video games, news, and sports. Coverage is wide-ranging and comprehensive, covering historical developments and trends as well as such relevant issues as gender disparities in pay and advancement opportunities, stereotypical gender portrayals in popular entertainment, sexual harassment in America's media and entertainment industries, and the dearth of positive media representations of women of color. Engaging with this history and reading about current issues related to this topic will be useful to those interested in understanding more about why women's engagement in media—in such roles as performer, journalist, producer, and writer—is important. It will also help readers better understand how and why problematic media representations of women hinder efforts to achieve full gender equality in American society.

anatomy of a scandal trailer: *Postracial Resistance* Ralina L. Joseph, 2018-10-09 Winner, 2019 Outstanding Book Award, International Communication Association How Black women in the spotlight negotiate the post-racial gaze of Hollywood and beyond From Oprah Winfrey, Michelle Obama, and Shonda Rhimes to their audiences and the industry workers behind the scenes, Ralina L. Joseph considers the way that Black women are required to walk a tightrope. Do they call out racism only to face accusations of being called “racists”? Or respond to racism in code only to face accusations of selling out? *Postracial Resistance* explores how African American women celebrities, cultural producers, and audiences employ postracial discourse—the notion that race and race-based discrimination are over and no longer affect people's everyday lives—to refute postracialism itself. In a world where they're often written off as stereotypical “Angry Black Women,” Joseph offers that some Black women in media use “strategic ambiguity,” deploying the failures of post-racial discourse to name racism and thus resist it. In *Postracial Resistance*, Joseph listens to and observes Black women as they perform and negotiate race in strategic ambiguity. Using three methods of media analysis—textual readings of the media's representation of these women; interviews with writers, producers, and studio executives; and audience ethnographies of young women viewers—Joseph maps the tensions and strategies that all Black women must engage to challenge the racialized sexism of everyday life, on- and off-screen.

Monica Lewinsky affair was the climax of the phenomenon, and the resulting scandal had far-reaching effects. Politics became the language and the means for battles over sex. Sex and politics became metaphors for each other as American society struggled to come to terms with its sexual and political anxieties. *Partisan Sex: Bodies, Politics, and the Law in the Clinton Era* explores the high-cultural anxieties of the left and the masculinity hang-ups of the right, the exploitation of romance imagery and hot sauce bottles, the obsessions with Hillary Clinton's breakfasts, and the rise of a society of voyeurs. -- Amazon.com.

anatomy of a scandal trailer: *Social TV* Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment & Media Industries On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, *Social TV* shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.
