air canada business class boeing 777: The New (Ab)Normal Yossi Sheffi, 2020-10-01 Much has been written about Covid-19 victims, how scientists raced to understand and treat the disease, and how governments did (or did not) protect their citizens. Less has been written about the pandemic's impact on the global economy and how companies coped as the competitive environment was upended. In his new book, *The New (Ab)Normal*, MIT Professor Yossi Sheffi maps how the Covid-19 pandemic impacted business, supply chains, and society. He exposes the critical role supply chains play in helping people, governments, and companies to manage the crisis. The book draws on executive interviews, pandemic media coverage, and historical analyses. Sheffi also builds on themes from his books *The Resilient Enterprise* (2005) and *The Power of Resilience* (2015) to enrich the narrative. The author paints a compelling picture of how the Covid-19 virus is changing many facets of human life and what our post-pandemic world might look like. This must-read book helps companies to redefine their business models and adjust to a fast-evolving economic landscape. The stage is set In Part 1 of the book, "What Happened," the author looks at how companies fought to mend the global economic fabric even as the virus ripped more holes in it. Part 2, "Living with Uncertainty," views the crisis through a supply chain risk management lens derived from Yossi Sheffi's previous books. This perspective shows how companies create corporate immune systems to quickly recognize and manage large-scale disruptions. The ongoing pandemic is creating a new normal in life, work, and education—covered in Part 3, "Adjustment Required." Consumer fears about the contagion as well as government mandates require businesses in industries such as retail, hospitality, entertainment, sports, and education to create "safe zones" for workers and customers. Many elements of the book – especially in Part 4, "Supply Chains for the Future" – show how the virus accelerated preexisting trends in technology adoption. China was the epicenter of the pandemic; it also was the first nation to be disrupted and recover. Part 5 of the book, "Of Politics

and Pandemics,” explains why reports that companies are abandoning China in favor of other offshore manufacturing centers do not reflect reality. Fundamentally, The New (Ab)Normal is about businesses trying to create a better future in a time of extreme uncertainty – a point emphasized in Part 6, “The Next Opportunities.” The outlook is not necessarily gloomy. The advance of technology is accelerating, a trend that can level the playing field between small and large companies. Nimble small businesses are using a growing array of off-the-shelf cloud computing and mobile apps to deploy sophisticated technologies in their supply chains and customer interfaces. The New (Ab)Normal Another new normal is working from home. Remote working enables individuals to live anywhere and companies to recruit talent from anywhere. Education, especially higher education, faces a major disruption (and major opportunity) that is likely to shake the high-cost model of in-person education in favor of online or hybrid education. Regrettably, the book recognizes one trend accentuated by Covid-19--the growing inequality, and anticipates that the new normal will be more stratified.

air canada business class boeing 777: Havayollarında hizmet: konfor, faaliyet ve performans ilişkisinin değerlendirilmesi Dr. Tüzün Tolga İNAN, 2019-10-20 17 Aralık 1903 tarihinde Wright Kardeşlerin ilk başarılı motorlu uçuş denemesiyle başlayan sivil havacılık tarihi günümüzde dünyanın en büyük endüstrilerinden biri haline gelmiştir. Her ne kadar 2003 yılına kadar ülkemiz için sivil havacılık büyük bir aşama kaydetmese de, 2003 yılından sonra milat niteliğinde gelişmeler gerçekleşmiştir. Doktor ünvanını aldığım halen sivil havacılık alanında lisanslandırmaya sahip tek Üniversite olan Anadolu Üniversitesi ile başlayan sivil havacılık alanında ihtisas veren Üniversite ve Meslek Yüksekokulları, özellikle 2011 yılından itibaren sayıca üst limitlere ulaşmıştır. Ancak unutmamak gerekir ki, havacılık bir nevi aşkla ifa edilmesi gereken bir meslektir. İçerisinde pilotaj, hat ve bakım teknisyenliği, uçuş hareket yöneticiliği (dispeçerlik), uçuş ve misafir kontrol uzmanlığı, kabin, hareket, yolcu hizmetleri ve kargo memurluğu olmak üzere birçok iş tanımı bulundurmaktadır. Kendim için düşündüğüm zaman bana havacılığı sevdiren kişi babam olmuştur. Özellikle sektörel olarak 30 yılın üzerinde Türk Hava Yolları tecrübesinin bulunması ve beni havacılık alanında doktora yapmaya itmesi kariyerim için en önemli adımlardan bir tanesi oldu. Tabii herşey burada anlatmak istediğim kadar güllük gülistanlık olmamakla birlikte, vardiyalı çalışma düzeni ve yoğun tempo havacılığın olmazsa olmazıdır. Bu nedenle öğrencilere ve bu alanda kariyer yapmak isteyenlere tavsiyem, havacılığın para için yapılacak bir meslek olmadığına bilincinde olmaları gerektiğidir. Bu kitabı yayımlama sebeplerimden bir tanesi de kamuoyu tarafından bilinmeyen ya da bilindiği zannedilen bu endüstride hizmet-konfor ve performans parametrelerinin ne olduğunun ve bir havayolu şirketini hangi ölçüde etkilediğini göstermek istememdir. Bu kitap umarım hem akademik hem de sektörel camiada tüm havacılık çalışanlarına ve havacılık sevdalılarına faydalı olacak bir eser olacaktır. Unutmamak gerekir ki burada önemli olan konu 5 yıllık değerler ile 2016 yılında hangi verilerin elde edildiği değil, bu verilerin havacılık şirketleri için öneminin farkına varılması olacaktır.
