**best american express business credit card: Brand Premium** N. Hollis, 2017-06-30 Why do consumers pay a premium price for a brand? Is it better quality, the look and feel, or is it the brand's social standing? Author Nigel Hollis believes the answer to all those questions is yes. Yet the vast majority of brands today trade on past equity and transient buzz. And marketers focus on plan execution rather than creating meaningful differentiation rooted in the brand experience. This lack of meaning is creating a market full of commodities rather than products that instill loyalty. But loyalty (i.e., repeat business) is the key to long term success, and that requires focusing on meaningful differentiation: functional, emotional, or societal. Here, brand expert Nigel Hollis focuses on the four components of a meaningfully different brand: purpose, delivery, resonance, and difference. This unique model will be applied to two very different brand models: premium priced and value priced. The models will show readers how to amplify what their brand stands for across all the brand touch points including: findability, affordability, credibility, vitality, and extendibility. The book will include cases of global brands such as Dyson, Johnnie Walker, Geico, Volkswagen, and more.

**best american express business credit card: The Entrepreneur's Survival Handbook** Derreck Ford, 2020-12-28 Being an entrepreneur is risky. USA Today has written that "only 1 out of 5 new businesses survive past their first year of operation." Even fewer new businesses make it to five or ten years. Those who want to buck the odds must have persistence, resilience, and creativity to survive. An entrepreneur with over 30 years of experience knows all too well what a challenge it can be to start a business and has created a book to help budding entrepreneurs to not only build their business but to thrive. The Entrepreneur's Survival Handbook covers challenges entrepreneurs face that are not common knowledge—or even discussed. It includes essential topics such as these: • The wisdom of hiring friends and family • The importance of an employee manual • Overcoming the fear of such a big undertaking • How to read a room • Solutions to potential problems The handbook features 52 pointers for entrepreneurs—one for each week of the year—to study and record results. Entrepreneurs can read them one by one or shuffle them like a deck of cards. This one-of-a-kind resource serves as an excellent complement to traditional business school training, allowing entrepreneurs their best chance to achieve success and build their businesses.

**best american express business credit card: The Second-Best Business Book Ever Written** Tom Marks, 2024-07-16 Honesty in thought leadership matters. And so does seeing the light. Honesty, in its purest form, is a key characteristic of all thought leaders, so I'm going to hit you with the truth. Many business books today are written for the purpose of winning more business for an author, or acquiring new speaking gigs, and anyone who fits into that camp is A-OK with me. It's a smart move. But after more than four decades in sales and marketing, I'm beyond those goals. Frankly, it feels great that I'm not anchored to those intentions anymore. I have only one intent in The Second-Best Business Book Ever Written, and that's to teach the ins and outs of thought leadership to as many people as possible because that's how corporations, and the individuals who run them, succeed. There's a process to becoming a thought leader; it's methodical, detailed, and rewarding. After all, where's the amusement in being a price-chopper? Or even a technology leader where the tenure is as short as my nephew's attention span? The greatest thought leaders started sharing their thinking 2,500 years ago through the teachings of my four favorites: Socrates, Plato, Aristotle, and Aspasia. I'm going to travel with you down the thought leadership road, known as the Via Egnatia, from the foothills that rise above Athens to the skyscrapers that tower above Madison Avenue. And along the way, I'm going to show you how I did it for Fortune 500 companies, and for small and midsize businesses, with a few wild detours along the way. By all accounts, the Green Bay Packers future Hall of Fame quarterback Aaron Rodgers was born with a rock-solid throwing arm and an annoying chip on his shoulder. I'm no Rodgers fan; after all, I was born and raised in inner-city Chicago and have been a Bears fan since birth, but I recognize greatness, and Aaron Rodgers is a great football player. Some of his other qualities? Not so much. But these aren't lessons about tackle football. They're insights about leadership; about what happens off the football field, and on a more important playing field; about greatness in sales, marketing, and business; and about thought leadership, the single most important differentiator in the business playbook. Or, as Plato not so recently said, obviously unaware of Aaron Rodgers's famous retreat into darkness, "We can easily forgive a child who is afraid of the dark; the real tragedy of life is when men are afraid of the

light." I'd like to shed some light on what's required in business, but frequently misunderstood. What every salesperson needs to know, but doesn't always know how to achieve it. And what every marketing expert wishes they had in their bag of tricks. To simply say that thought leadership is an essential part of the disciplines of market leaders is like saying a stick is an essential part of a Popsicle. Well, it is, assuming you're not interested in taste, color, packaging, name, price, quality, and the beat goes on. Tom Marks survived forty-seven years in the advertising business and has lived to write about it. He's the founder of TMA+Peritus, one of the leading marketing, thought leadership, and corporate ethics firms in North America and has won more than sixty-five American Advertising Awards for his writing. He spent many years on the professional speakers circuit and survived that, too. His thought leadership workshops for Fortune 500 companies have brought him national acclaim and has made him a favorite among the nation's CEOs.
