arizona business lawyers: Islamic Capital Markets and Products Simon Archer, Rifaat Ahmed Abdel Karim, 2017-10-16 Ensure Basel III compliance with expert analysis specific to Islamic Finance Islamic Capital Markets and Products provides a thorough examination of Islamic capital markets (ICM), with particular attention to the products that they offer and the legal and regulatory infrastructure within which they operate. Since Islamic banks act as asset managers, attention is paid to the regulatory challenges which they face in the light of Basel III, as regards both eligible capital and liquidity risk management. The authors of the chapters are professionals and practitioners, and write from experience. The editors also contributed to some of the chapters. The markets and products covered include Islamic equities, Islamic investment certificates (Sukūk) which are Shari'ah compliant alternatives to conventional bonds, and Islamic Collective Investment Schemes. The coverage of legal and regulatory issues includes an examination of the implications for ICM of securities laws and regulations and of Basel III, as well as collateralisation issues. Shari'ah compliance aspects, in terms both of the selection criteria for Islamic equities and of the 'purification' of impermissible components of income, are also examined in some detail, as are the implications of Basel III for eligible capital in general and for Shari'ah compliant capital instruments in particular. A similar analysis is also made of the implications of the Basel III requirements for liquidity risk management and high quality liquid assets (HQLA), including Shari'ah compliant HQLA. The book concludes with three case studies, two describing the ICM in Malaysia and Bahrain and a third which describes Sukūk issued as Shari'ah compliant capital instruments, followed by brief concluding remarks by the editors.

ethical priorities and behaviour when confronted with major ethical challenges. It identifies the applicable law and conduct rules and analyses them in the context of four different types of ethical lawyering: zealous advocacy, responsible lawyering, moral activism and the ethics of care. This new edition is fully updated, with a new chapter on confidentiality and new case studies and review questions. This edition also contains a self-assessment instrument designed to allow readers to recognise the type of lawyering that most appeals to them. arizona business lawyers: *Lawyers in Practice* Leslie C. Levin, Lynn Mather, 2012-03-30 How do lawyers resolve ethical dilemmas in the everyday context of their practice? What are the issues that commonly arise, and how do lawyers determine the best ways to resolve them? Until recently, efforts to answer these questions have focused primarily on rules and legal doctrine rather than the real-life situations lawyers face in legal practice. The first book to present empirical research on ethical decision making in a variety of practice contexts, including corporate litigation, securities, immigration, and divorce law, *Lawyers in Practice* fills a substantial gap in the existing literature. Following an introduction emphasizing the increasing importance of understanding context in the legal profession, contributions focus on ethical dilemmas ranging from relatively narrow ethical issues to broader problems of professionalism, including the prosecutor's obligation to disclose evidence, the management of conflicts of interest, and loyalty to clients and the court. Each chapter details the resolution of a dilemma from the practitioner's point of view that is, in turn, set within a particular community of practice. Timely and practical, this book should be required reading for law students as well as students and scholars of law and society.
