augusta business daily: *Civil War Flags of Tennessee* Stephen Douglas Cox, 2024-01-12 Civil War Flags of Tennessee provides information on all known Confederate and Union flags of the state and showcases the Civil War flag collection of the Tennessee State Museum. This volume is organized into three parts. Part 1 includes interpretive essays by scholars such as Greg Biggs,

Robert B. Bradley, Howard Michael Madaus, and Fonda Ghiardi Thomsen that address how flags were used in the Civil War, their general history, their makers, and preservation issues, among other themes. Part 2 is a catalogue of Tennessee Confederate flags. Part 3 is a catalogue of Tennessee Union flags. The catalogues present a collection of some 200 identified, extant Civil War flags and another 300 flags that are known through secondary and archival sources, all of which are exhaustively documented. Appendices follow the two catalogue sections and include detailed information on several Confederate and Union flags associated with the states of Mississippi, North Carolina, and Indiana that are also contained in the Tennessee State Museum collection. Complete with nearly 300 color illustrations and meticulous notes on textiles and preservation efforts, this volume is much more than an encyclopedic log of Tennessee-related Civil War flags. Stephen Cox and his team also weave the history behind the flags throughout the catalogues, including the stories of the women who stitched them, the regiments that bore them, and the soldiers and bearers who served under them and carried them. *Civil War Flags of Tennessee* is an eloquent hybrid between guidebook and chronicle, and the scholar, the Civil War enthusiast, and the general reader will all enjoy what can be found in its pages. Unprecedented in its variety and depth, Cox's work fills an important historiographical void within the greater context of the American Civil War. This text demonstrates the importance of Tennessee state heritage and the value of public history, reminding readers that each generation has the honor and responsibility of learning from and preserving the history that has shaped us all—and in doing so, honoring the lives of the soldiers and civilians who sacrificed and persevered.

augusta business daily: Sports Law Patrick K. Thornton, 2010-02-04 Sports Law looks at major court cases, statutes, and regulations that explore a variety of legal issues in the sports industry. The early chapters provide an overview of sports law in general terms and explore its impact on race, politics, religion, and everyday affairs. Later chapters address hot button issues such as gender equity, drug testing, and discrimination. Written from a sport management perspective, rather than

from a lawyer's, this text covers all the major areas presented in sports law today including: cases relating to torts, contracts, intellectual property, and agents. Factual scenarios throughout the text allow students to critically examine and apply sport management principles to legal issues facing the sports executive.
