bipoc business: COVID-19, the LGBTQIA+ Community, and Public Policy Wallace Swan, 2022-10-28 The COVID-19 pandemic has exposed and exacerbated long-standing inequities, both in

the United States and throughout the world. As studies emerge to help us understand the effects of the COVID-19 pandemic on every facet of modern life, it is critical that the effect of the pandemic on the Lesbian, Gay, Bisexual, Transgender, Queer, Intersexual, and Asexual (LGBTQIA+) communities not be overlooked. While some pioneering studies analyzing the impacts of the pandemic upon LGBTQIA+ communities have been conducted, and some efforts are being made to collect data which can impact the development of policy, reliable data resources are limited to a few enterprising states, and this data has not been systematically shared with public policy-makers or with the public to date. COVID-19, the LGBTQIA+ Community, and Public Policy explores precisely how the pandemic has affected these communities and what concrete steps need to be taken to ameliorate its effects. As the chapters in this book demonstrate, the unusual nature of the pandemic has significantly impacted state and local LGBTQIA+ infrastructure, leading to closure of some institutions and reductions in functioning for many others. The contributors examine the ways the pandemic has highlighted preexisting challenges on accessing adequate healthcare (including mental healthcare and substance abuse treatment), employment, education, secure housing, and other societal resources. Together, these chapters present a state-of-the-field overview of health disparities in the LGBTQIA+ community, and demonstrate the particular need for serious, timely, public policy interventions.

bipoc business: *Global Business* Nader H. Asgary, Dina Frutos-Bencze, Massood V. Samii, Hossein Varamini, 2021-01-01 The arrival of the COVID-19 pandemic throughout the globe at the end of 2019 turned global business upside down. It forced the closure of many businesses, disrupted global supply chains, reduced travel across borders, and created fear about face-to-face interactions. As the lockdowns in many countries created uncertainty about the future business activities, global business leaders were scrambling to find new strategies to safely re-establish their business relationships with their stakeholders. The existing historical economic, social, and racial injustice in the American society toward Black, Indigenous, and People of Color was compounded by the COVID-19. This led the movements of the Black Lives Matter to reenergize and become a global phenomenon. The horrific and sad death of George Floyd and many others triggered huge global movements to demand respect for human rights and dignity for all. Additionally, climate change and environmental degradation have caused unprecedented forests fires, more frequent and damaging hurricanes, and migration demand a revived global business book. This third edition of *Global Business: An Economic, Social, and Environmental Perspective* incorporates global business issues related to COVID-19, the economic and social injustice of BIPOC, and environmental degradation where it is appropriate. The reader will understand the impact of these critical global business issues discussed in the book through examples, case studies and thought-provoking discussions. These challenges require businesses, governments, and the active engagement of citizens to succeed. The aim of this book is to bring these issues for discussion and action by these stakeholders. Each chapter includes supplementary PowerPoint slides, Test-Bank, and Teaching notes that are available for instructors only.

bipoc business: Driving Justice, Equity, Diversity, and Inclusion Kristina Kohl, 2022-01-27 Navigating the volatility, uncertainty, complexity, and ambiguity (VUCA) characterizing the business world in the 21st century requires a new paradigm focused on an integrated bottom line – planet, people, and profit (PPP). Global trends include resource scarcity and growing inequities in income, wealth, education, and healthcare. Stakeholders are demanding that organizations address systemic barriers to promote justice and equity within organizations and across broader social systems. Transformational change requires leadership to analyze internal and external systems through a social and environmental justice lens. Despite a growing focus on justice, equity, diversity, and inclusion, the imbalance of power remains within our institutions, organizations, and social systems. To move the needle, leaders can turn to *Driving Justice, Equity, Diversity, and Inclusion*, which explains developing a North Star vision and creating a strategy to redesign organizational process and systems, as well as leveraging tools for data-driven decision-making. It presents a framework to build an inclusive organization as well as a model to engage and support senior and middle management beginning the process of capacity building and systemic change. By layering in AI and other technologies to support data-driven decision-making, the book guides leaders in navigating their organization's journey along the maturity continuum to achieve their North Star vision of becoming a just and equitable organization. The book also helps managers to: Assess ecosystems and organizational systems that justice, equity, diversity, and inclusion impact Take a deeper dive into transformational and operational components to gain insights on the deep systemic realignment of the North Star vision Identify and engage with diverse stakeholders to gain perspective and understand issues crucial for transformative change Leverage people-centered design to create a process promoting diversity of voices and to better align outcomes with shared organizational vision Use data to drive decision-making and reduce bias by removing intuition from the decision-making

process Leverage the book's frameworks to drive collaborative systemic change Adapt insights highlighted in multiple interviews with DEI practitioners Benefit from lessons learned and best practices featured in the book's case studies This book features a primer, which is a quick reference guide to key terms, concepts, and definitions. It helps to define justice, equity, diversity, inclusion, and other key terms, such as unconscious bias, stereotypes, and microaggressions. It also features a toolkit, which includes checklists to help managers lead organizations to realize their own North Star vision.

bipoc business: Racial Justice at Work The Winters Group Team, 2023-02-14 Creating justice-centered organizations is the next frontier in DEI. This book shows how to go beyond compliance to address harm, share power, and create equity. Traditional DEI work has not succeeded at dismantling systems that perpetuate harm and exclude BIPOC groups. Proponents of DEI have put too much focus on HR solutions, such as increasing representation, and not enough emphasis on changing the deeper organizational systems that perpetuate inequities—in other words, on justice. DEIJ work diverges from traditional metrics-driven DEI work and requires a new approach to effectively dismantle power structures. This thought-provoking, solutions-oriented book offers strategic advice on how to adopt a justice mindset, anticipate and address resistance, shift power dynamics, and create a psychologically safe organizational culture. Individual chapters provide pragmatic how-to guides to implementing justice-centered practices in recruitment and hiring, data collection and analysis, learning and development, marketing and advertising, procurement, philanthropy, and more. DEIJ pioneer Mary-Frances Winters and her coauthors address some of the most significant aspects of adding a justice focus to diversity work, showing how to create a workplace culture where equity is not a checklist of performative actions but a lived reality.
