**best certifications in business:** The Oxford Handbook of Business Groups Asli M. Colpan, Takashi Hikino, James R. Lincoln, 2010-08-05 Business groups - large, diversified, often family-controlled organizations with pyramidal ownership structure, such as the Japanese zaibatsu, the Korean chaebol and the grupos economicos in Latin America - have played a significant role in national economic growth, especially in emerging economies. Earlier variants can also be found in the trading companies, often set up in Britain, which operated in Asia, Africa, and Latin America. Business groups are often criticized as premodern forms of economic organization, and occasionally as symptomatic of corrupt 'crony capitalism', but many have shown remarkable resilience, navigating and adjusting to economic and political turbulence, international competition, and technological change. This Handbook provides a comprehensive analysis of business groups around the world. It examines the adaptive and competitive capabilities of business groups, and their evolutionary dynamics. 16 individual country chapters deal with business groups from Asia to Africa, the Middle East to Latin America, while overarching chapters consider the historical and theoretical context of business groups. With contributions from leading experts, The Oxford Handbook of business groups provides a comprehensive, empirically and theoretically rich guide for scholars and policy-makers.

**best certifications in business:** *Classified* Henry Vinson, 2023-05-08 Don't be the best in the world at what you do; be the only one in the world who does what you do. --Jerry Garcia *Government Contracting Classified* is a book of issues and problems concerning government contracting. Henry was raised in a small town (population about eighty) in Northern Middle Tennessee three miles from the Kentucky border. That area is now known as Land Between the Lakes National Recreation Area. That town was Model, Tennessee. He retired after thirty-two years from the federal government as a federal contracting officer and division chief with an unlimited warrant. Then he ran the Center for Government Contracting at the Dallas County Community College Small Business Development Center (SBDC), where he taught seminars and counseled contractors about government contracting. After that for nine years, he owned his own business, where he wrote technical proposals for contractors. His last position was on the staff of the University of Texas at Arlington Cross Timbers Procurement Technical Assistance Center, and he retired after more than fourteen years. He conducted government contracting webinars/seminars and did one-on-one counseling with potential and current government contractors (small, medium-sized, and large contractors). He worked with federal, state, and local governments. Henry has conducted over seven hundred webinars/seminars, mostly in Texas, over the past twenty-five years. He counseled thousands of contractors and had thousands in his seminars. During his time as a Contracting Officer with an unlimited warrant and working for colleges and universities, he noticed several issues and problems kept coming up over

and over. He has identified many of those issues and problems. He points them out in this book with commentary. Although this book is not all-inclusive, it does identify many issues and problems that should be of interest to newcomers and the seasoned government contractor as well. Henry not only points out important issues and problems but provides his personal comments (with seriousness and humor). I assure you before God that what I am writing you is no lie. --Galatians 1:20
