That's why we created Tennessee Real Estate License Exam Prep (TN-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works - or fails to work. TN-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is Tennessee-specific - not just simplistic national content, but terse, relevant and accurate Tennessee laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. TN-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice - one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question selection, is further tailored to the state testing outline promulgated by PSI for Tennessee. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Tennessee license exam. A word about the test questions... TN-RELEP's testing practice section consists of ten national practice tests, five state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews - which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Tennessee real estate exam. So good luck!! For students looking for a Tennessee prelicense textbook to complement Tennessee Real Estate License Exam Prep, we also publish Principles of Real Estate Practice in Tennessee.

business and law exam tn: Tales from Tennessee Lawyers William Montell, 2005-10-07 Perhaps no one has keener insight into human nature than the small-town trial lawyer. All but lost in an era of corporate law firms and specialized practice, this charismatic figure was once at the political center of a community and was the holder of its many secrets. A small town attorney's only specialization was the town itself. Serving as both defender and accuser, these lawyers witnessed communities and individuals at their best and worst. Men and women of the legal profession often exert influence in seemingly small realms, but they play an important role in the lives of many people and help shape the American legal system. Veteran oral historian and folklorist William Lynwood Montell has brought together a fascinating collection of tales gathered from lawyers and judges throughout the Volunteer State. Montell searched small towns and cities across Tennessee for the law's older and middle age practitioners, and he shares the wealth of their experience in *Tales from Tennessee Lawyers*. These stories are recorded exactly as told by the lawyers themselves, and they reveal candid and unusual snapshots of the legal system—both past and present. With a tape recorder and an ear for detail, Montell uncovers events and lives ranging from the commonplace to the extraordinary. A man resorts to prostitution to alleviate the debt brought about by divorce proceedings. Identical twins are tried for a string of murders. A convict flees his trial by stealing the judge's car. A prosecutor tries the nation's first school-shooting case. Judge George Balitsaris, a former University of Tennessee football player, escorts a special prosecutor out of a notorious rape trial as a precaution after the defendant's family issues threats. These and similar stories illustrate the strange, complex cases argued daily from Tennessee's largest cities to its smallest towns. Far more than just a collection of lawyer jokes, these recollections shed light on the tense and often dangerous lives of those who work to see that all receive fair representation and treatment in court.
