business class flights emirates: The Chairman's Lounge Joe Aston, 2024-10-28 Shortlisted for the 2025 ABIA Awards, General Nonfiction Book of the Year and The Matt Richell Award for New Writer of the Year From the must-read journalist on how power, money and influence work in this country, the full story of how one of the nation's favourite brands brought itself to ground. Before Covid, both Qantas and its CEO Alan Joyce were flying high, the darlings of customers, staff and investors. After Covid hit, only money mattered – in particular, the company's share price and extraordinary executive bonuses. Illegally redundant workers, unethical flight credits, abysmal customer service, antique aircraft: these became Qantas' new brand. How did things go so badly wrong? Why were customers at the end of the queue? And how did an increasingly autocratic Joyce constantly get his own way, with the Qantas board and with both Liberal and Labor governments, which handed over billions in subsidies and protected lucrative flight routes from foreign competition? For the first time, *The Chairman's Lounge* tells the full story of how one company banked the nation's loyalty and then cashed in on it. In his celebrated column Rear Window for the Australian Financial Review, Joe Aston's reporting of the ethical failings of Qantas spurred the early retirement of its CEO and the resignation of its chairman. With fresh interviews and revelations, written in Aston's trademark swashbuckling style, *The Chairman's Lounge* is the definitive account of how Qantas was brought to ground and who did it. It is a parable of our times. 'A masterclass in investigative journalism ... A scathing, unflinching takedown of greed, delusion and a shameless abuse of power, both jaw-dropping and brilliantly incisive' Adele Ferguson

business class flights emirates: The Geographies of Air Transport Andrew R. Goetz, Lucy Budd, 2016-03-09 Making a detailed contribution to geographies of air transport and aeromobility, this book examines the practices and processes that produce particular patterns of air transport provision both regionally and globally. In so doing, it updates the seminal contributions of Eva Taylor (1945), Kenneth Sealy (1957), Brian Graham (1995) and others to the study of air transport geography. Leading scholars in the field offer a unique insight into the key developments that have occurred in the field and the implications that these developments have had for geography, geographers, and global patterns of past, present and future air transport. Although globalization and liberalization processes have greatly expanded the demand for air transport over the last two decades, the industry has experienced several major setbacks due to economic, security, and environmental concerns. Many of these impacts have been much more pronounced in some regions, such as North America and Europe while others, such as Asia-Pacific have not been as adversely affected. Accordingly, there is a clear need to examine these recent economic and geopolitical changes from a geographical perspective given the differentiated pattern of effects from global processes. Addressing this need, this volume opens with thematic chapters covering key topics such as the historical geographies, socio-cultural mobilities, environmental externalities, urban geographies, and sustainability of the global air transport industry, followed by regional analysis of the industry in Asia-Pacific, Latin America, Greater Middle East and Africa as well as North America and Europe.

The summary and review questions help the reader to understand the focus and main messages of each chapter. Students and researchers in business administration with a focus on aviation, as well as professionals in the industry looking to refresh or broaden their knowledge in the field will benefit from this book.

business class flights emirates: *Even More Journeys of a Lifetime* Len Coates, 2017-08-14 When I wrote my first book *Journeys of a Lifetime* in 2004, it reflected how dreams of mine of visiting unknown places in the UK, countries across the North Sea in Europe, and seemingly far-off continents of America, Africa, Asia, and Australia became a reality. That was mainly due to the advent of air travel, package holidays, and the massive growth of international travel in the second half of the twentieth century. Nine years on from that book, in my second book, our traveling had continued, and in that time, having seen the arrival of four grandchildren, naturally they have joined in some of the journeys. At that time, our fourth grandchild just made the book with her name and date and place of birth. Naturally, there was a need for another book so that she, as well as her brother and cousins, will all be able to read as they get older about their grandparents travels, and in particular, some of which included them. Although places visited in the three years since the last book include some return trips to old favorites, this book reflects only the new places visited. In particular, India, the Middle East, the Far East, Eastern Europe, and nearer home the beautiful Northeast England, it reflects the visits of the grandchildren, featured more this time. As we now have two grandchildren living in the Costa del Sol, as well as the Aussie part of the family, Spain, and Australia are now regular destinations. Although the UK is much smaller in area than those two countries, it is packed with wonderful places to visit, so trips at home are still often very much included in our travels. Added to that, cruising has taken off in the last decade a bit like package deals to Europe did in the 1960s and has provided a very enjoyable new dimension to the journeys made. Cruises are featured several times in this book. *More Journeys of a Lifetime* and now *Even More Journeys of a Lifetime* reflect the further growth in long-haul travel and the massive increase in cruising. Hope you enjoy my further travels around this small world of ours, going on from those early dreams of mine and continuing to do so!
