business class flight to china: *An American Cookie Seeks Her Fortune in China* Jean Walsh, 2009-03-23 In the 1980s, author Jean C. Walsh, a recent widow with four sons, decided to take her ten-year study of Chinese culture and put it to work. She started a consulting business with the objective of helping American business men and women establish connections in China. Throughout the 80s she traveled to China leading trade missions hoping to open markets from Nantung to Beijing. Her story is one of triumph and frustration, as Chinese business practices and American business practices were often at odds with one another. Jean was the bridge that connected the two disparate cultures; both loved by the Chinese people, and respected for her cultural authority by the American business leaders. Jean also took National Geographic-quality photographs on her journeys throughout China, and this coffee table book of her memoirs is an historic document, and a timeless, and evocative testament to one woman's strength and savvy in the often enigmatic world of doing business in China.

business class flight to china: China's Three Gorges, Xi'an and the Terracotta Warriors Simon Foster, Vivien Lougheed, 2009-10-15 This guide is based on our much larger (530-page) guide to Bolivia. Here we zero in on La Paz, the capital, and all of the nearby attractions. La Paz is not a big city on the world scale, but it is certainly one of the more interesting ones. Built in a bowl created by the Choqueyapu River, the upper parts of the city stand 1,645 ft/500 m above the lower sections. Unlike any other city in the world, the richer neighborhoods are located at the lower levels. This is partly due to the fact that it is warmer and easier to breathe at the lower altitudes. Also, the pinnacles and spires of conglomerate rock and clay that have been sculptured by wind and water make a dramatic backdrop for those living below them. The higher up the bowl one goes, the more unstable the land becomes and the more likely a landslide will occur. The plazas, squares and Prado are well kept in La Paz and even in the depth of winter plants are tended to help make the city attractive. Street cleaners are out every day and local merchants regularly wash the area in front of their shops. On a clear day, Mount Illimani, a snow-covered monolith, can be seen as a sentry towering over the city. Valley of the Moon is six miles/10 km from the center of La Paz and can be reached by joining a tour or by taking micro bus #11 or minibus #231 or 273 to Mallasilla. The hillside features a maze of clay canyons and pinnacles that have been sculpted by wind and rain. Narrow trails through the landscape take about an hour to walk. There is also a cactus park just before the entrance. The park overlooks a gorge and has paths leading around numerous types of cacti. As you continue up the road you will come to Parque Nacional Mallasa with its bird observatory and, across the road, the zoo area. The road passes under natural stone bridges and past Chulpani's Red Hill. There is no mistaking which hill this is. From Mallasa one can see across the river to the highest golf course in the world. Devil's Tooth or Muela del Diablo is a huge volcanic plug sticking out of the landscape to a height of 13,000 ft/3,950 m. Several trails go to the right; follow the one that obviously leads to the village. From there, go to the left for .3 miles (about half a

kilometer), to the foot of the rock. Climbers are occasionally found on the east face. Canyon de Palca, or Valle de Animas, is a deep canyon that was carved by the Rio Palca centuries ago. To get there, take a bus going to Huni from Plaza Belzu on Avenida Mexico in San Pedro. There are huge pinnacles and wind-carved conglomerates. The trail continues along the bottom of the canyon to a natural obelisk. Just past the obelisk is a rock that has the appearance of a human hiding in a cave. The rock is called the hermit of the canyon. Continue along the canyon to its end and climb to your left up to the village of Palca. This is a long day-hike. All of the detailed information you need is here about the hotels, restaurants, shopping, sightseeing. But we also lead you to new discoveries, turning corners you haven't turned before, helping you to interact with the world in new ways. That's what makes our Adventure Guides unique. An excellent addition to the Adventure Guide series, packed with detail, from where to stay and eat, to where to shop for local crafts and how to enjoy historic sites. This guide surveys the wildlife and outdoor opportunities of the country, which range from tropical jungle to high plains deserts. Hiking and viewing opportunities blend with cultural insights. Highly recommended. - The Midwest Book Review.

The state-owned enterprise returns a small profit but is severely capacity constrained and burdened with inefficiency. A comprehensive reform and efficiency improvement program needs to be developed in order to enable Chinese Railways to support further GDP growth in China. Application of industrial economics to the case of Chinese Railways suggests that moderate deregulation of e.g., the freight business could make Chinese Railways fit for future growth. Operational improvements need to complement this development, such as a redesign of the schedule or the introduction of value added services in the freight business. Based on interviews with Chinese experts, benchmarking with railways in the US, Germany, Russia, and Japan as well as broad coverage of Chinese-language sources, the book makes detailed recommendations on how to design a comprehensive turnaround program for Chinese Railways.

Born a village boy in rural Singapore in the mid-60's, Wilson climbed the heights of international match-fixing across five continents, becoming FIFA's most wanted man. Like a guppy in the sea, Wilson starts off a small gambler, mixing with the local Singapore bookies, and witnesses the rise and fall of the old-school Asian big fish of match-fixing until he finds himself competing against them in a world with no set rules, where turncoats are the norm and quick money the only drive. Perumal was arrested in Finland in February 2011 and decided to collaborate with authorities, thus opening the match-fixing Pandora's box. In his book, Wilson reveals an unprecedented account of how the international match-fixing underworld has influenced the outcomes of matches at every level of football that we may well have watched unsuspectingly. *Kelong Kings* is the ultimate tale about gambling, football and match-fixing, told directly by the man who made it all happen. But be advised, after you read this book, you will never be able to watch a soccer match in the same way again.
