business class on japan airlines: Letters to His Children from an Uncommon Attorney David Roberts, 2014-08-22 This memoir was inspired by the author's daughter. He would tell her stories about incidents in his life: so she persuaded him to write them down. You must write all this down,

Dad, so they can be read by your grandchildren. And you must get on with it before you die. Some stories are brief, half a page: others are long, twelve pages. It is the sort of book to keep by the bedside and dip into, one story at a time. Some stories cover events that occurred when the author was a small boy growing up in England during the war. Some cover incidents while he and his wife were travelling, in China, Japan, France, in Canada and in other odd places: events that occurred in the neighbourhood in Caulfeild Cove, where he and his wife have lived for fifty two years. There are pieces about Haida Gwaii and some about his experiences practising law. The stories range from the funny to the harrowing.

business class on japan airlines: Japanese Journeys Geoffrey Bownas, 2021-10-25 Geoffrey Bownas, widely known over the last half century for his writings, translations, broadcasts and commentaries relating to Japan, and an eminent Japanese Studies scholar who pioneered teaching in this field at Oxford (1954) and Sheffield (1966), has at last completed a memoir. It is both a literary triumph and a compelling read – not least for the many who have known him – as well as a historical record of some significance tracking Japan’s post-war history from abject poverty to unimaginable prosperity as the world’s second largest economy, and the ‘lost’ post-bubble years. In particular, the author includes a detailed account of his association with Mishima Yukio while preparing the Penguin New Writing in Japan, his early years in Kyoto and his experience of living in Tenri City. He also offers a critical appraisal of the Japanese aesthetic, documents an extraordinary meeting with Honda Soichiro, and takes a nostalgic journey back to the writing of his many books on Japan, including the Penguin Book of Japanese Verse (with Anthony Thwaite), Japanese Rainmaking and Other Folk Practices, and Japan and the New Europe. Equally, his involvement and input at some of Japan’s key turning points over the last fifty years make fascinating reading, such as the 1964 Tokyo Olympics when he was the BBC’s interpreter, and more recently the New Kansai International Airport in the early 1990s as consultant to Watson Steel, a member of the AMEC Group.
