business for sale gulf shores: Underwater Ryan Dezember, 2020-07-14 Winner of the Bruss Real Estate Book Award His assignment was to write about a real-estate frenzy lighting up the Redneck Riviera. So Ryan Dezember settled in and bought a home nearby himself. Then the market crashed, and he became one of the millions of Americans who suddenly owed more on their homes than they were worth. A flood of foreclosures made it impossible to sell. It didn't help that his quaint neighborhood fell into disrepair and drug-induced despair. He had no choice but to become a reluctant and wildly unprofitable landlord to move on. Meanwhile, his reporting showed how the speculative mania that caused the crash opened the U.S. housing market to a much larger breed of investors. In this deeply personal story, Dezember shows how decisions on Wall Street and in Washington played out on his street in a corner of the Sunbelt that was convulsed by the foreclosure crisis. Readers will witness the housing market collapse from Dezember's perch as a newspaper reporter. First he's in the boom-to-bust South where a hot-air balloonist named Bob Shallow becomes one of the world's top selling real-estate agents arranging condo flips, developers flop in spectacular fashion and the law catches up with a beach-town mayor on the take. Later he's in New York, among financiers like Blackstone's Stephen Schwarzman who are building rental empires out of foreclosures, staking claim to the bastion of middle-class wealth: the single-family home. Through it all, Dezember is an underwater homeowner caught up in the mess. A cautionary tale of Wall Street's push to turn homes into assets, Underwater is a powerful, incisive story that chronicles the crash and its aftermath from a fresh perspective—the forgotten, middle-class homeowner.

business for sale gulf shores: *Funding Forward* Grace Duddy Pomroy, 2024-09-17 Many congregations across the country are coming to two seemingly unrelated realizations. First, the Sunday morning offering may not be enough to sustain their mission. Second, their ministry has been so internally focused that they are almost entirely disconnected from the community they are called to serve. *Funding Forward* provides a path to help a congregation discern God's mission, reconnect with the neighborhood, and find a new, more economically sustainable model for ministry. Drawing on years of teaching, research, and field work, Pomroy shows there are no one-size-fits-all solutions for church and nonprofit finances. There is no single model that will work for every ministry. Each economic model has a distinct shape because each ministry has a distinct mission and community. However, common tools span these ministry models: repurposing church property, social enterprise, impact investing, grants, multi-vocational ministry, and more. While the tools and models can spark creativity, congregational leaders often wonder what process they might use to discern God's mission, which tools will work best in their context, and how they might get other congregational leaders on board. Discernment and execution are much more challenging than the ideation process. *Funding Forward* can help ministers and ministries move through the funding forward process from start to finish--paying special attention to the leadership challenges and pitfalls they might encounter along the way.
