business hotels in abu dhabi: The Oil & Gas Year Abu Dhabi 2019 The Energy Year, 2019-07-13 The Oil & Gas Year and the Qatar Chamber of Commerce and Industry partnered to produce the TOGY Qatar 2019 edition, highlighting Qatar's attractive business environment, the country's resilience and QP's ambitious local and international expansion plans, and covering major

projects and services in the industry. This edition includes insights from Qatar's most influential players and provides in-depth articles that offer market intelligence on the country's entire value chain, from exploration and production to midstream, downstream and oilfield services, as well as the engineering and construction, marine and logistics, and others sectors. The edition also provides detailed and exclusive coverage of dynamic developments such as the North Field Expansion project as well as the Hamad Port. This edition of The Oil & Gas Year's Qatar series aims to raise the global profile of Qatar's hydrocarbons and related industries, showcase its industries accomplishments, and promote its future development plans. 9781783021901 TOGY is proud to present the The Oil & Gas Year Ghana 2019, published in collaboration with Ghana Oil Club. This third edition covers the lessons learned from the global oil price downturn and the opportunities that are becoming available as commodity prices recover. The book also provides readers with a complete perspective of the country's main energy projects and steps the government is taking to draw in more foreign investment. Due to a prospective upswing in oil and gas activity, Ghana's offshore industry continues to expand, with capacities being renovated at the main ports of Tema and Takoradi. Meanwhile, companies continue bringing in new technologies to advance Ghana's E&P and renewables potential as the country modernises. Moreover, Ghana's downstream sector is hugely competitive. As Ghana works to promote investment in its oil and gas industry, surrounding sectors are being hit with massive changes. Ensuring the competence of next generations, major firms and universities have launched courses or research chairs in petroleum studies. Extensive in-depth analysis is supported by comprehensive maps, illustrations and graphs to create a market guide essential for players seeking to either expand their operations or enter the Ghanaian oil and gas market. 9781783021963 The Oil & Gas Year (TOGY), in partnership with Abu Dhabi National Oil Company (ADNOC) and the Ministry of Energy and Industry, proudly presents The Oil & Gas Year Abu Dhabi 2019. This eighth edition covers the emirate's new comprehensive strategy - termed Oil and Gas 4.0 - and key investments as projects and partnerships begin to pick up pace. ADNOC made history in 2018 by opening its first bid round. The NOC is moving in the direction of becoming an IOC and in doing so has opened up Abu Dhabi to more collaboration with multinationals, including equity partnerships with BHGE, Eni and OMV. The strategy shows that the NOC knows that in order to meet its ambitious target of 5 million bopd by 2030, it will need to harness the power of collaboration over competition. Looking beyond the upstream, the edition touches upon major themes such as the regional competition to secure market share in petrochemicals, to which Abu Dhabi is responding by building what is slated to be the area's largest integrated downstream facility at Ruwais. The edition also discusses digitisation drives being spearheaded in the UAE in the private and public sectors, as well as the introduction of new technologies such as inspection drones and digital twins. Extensive in-depth analysis is supported by comprehensive maps, illustrations and graphs to create a market guide essential for players seeking to either expand their operations in Abu Dhabi or enter this dynamic market.

business hotels in abu dhabi: The Report: Abu Dhabi 2016 Oxford Business Group, 2016-05-09 Subdued oil prices prompted a trimmed federal budget for 2016 as the UAE, like other countries in the region, tightened its belt in response to falling hydrocarbons revenues. However, a sustained focus on economic diversification and targeted investment in Abu Dhabi's key non-oil

sectors in recent years means the emirate is well positioned to weather the storm. Looking forward, plans for future development are mapped out in Abu Dhabi Economic Vision 2030, a comprehensive economic policy document that aims to reduce dependence on oil and gas, thereby creating a more sustainable knowledge-based economy for the emirate and its inhabitants. Aided by hydrocarbons reserves that are among the world's largest and substantial financial resources, Abu Dhabi has built up a strong foundation to become a regional leader and an increasingly important global player in a wide variety of sectors, including oil and gas, financial services, health care, aviation and renewable energy.
