business idea for men: *Men Do It Too* Ingrid Biese, 2021-06-08 Men Do It Too: Opting Out and In offers a timely and comprehensive analysis of the phenomenon of men leaving mainstream careers models, adding to current debates on opting out. The book investigates how globalization, individualization, and this age of high modernity, in addition to issues of masculinity and what it means to be a man in contemporary society and organizational contexts, affect decisions to opt out. Throughout the book, social theory and relevant debates are interwoven with the narratives of 15 men who have left successful careers and mainstream career models to live and work on their own terms: six from the United States, five from Finland, and four from the UK. The narratives help illustrate the issues presented, as well as providing an insight into the men's identity work throughout their opting out processes. In addition, Biese explores what organizations can learn from the knowledge gathered in her research on men (and women) opting out. This is important in order to create sustainable work environments that not only attract but also retain employees.

business idea for men: The Sword of Ponsonby David Mosey, 2005-10-14 As head of the Guild of the Black Mages, Guildmaster Ponsoby knows that you have to move with the times, and that's what he's trying to do. He's opened negotiations with Titus Handcarte, the First Speaker of East Castellian and not only has he won two enormously profitable research contracts, but also has got Handcarte to repeal the age-old prohibition that barred occult professionals from practising in East Castellian. So everything in the garden should be lovely. And it would be except for Montmorency. Mage Montmorency, the most expert and powerful of the Black Mages, is dead set against Ponsonby's plan. But to the creative manager, such opposition is an opportunity, not a problem. With the enthusiastic support of his other colleagues, Ponsonby binds Montmorency, imprisons him behind countless tons of solid rock. So now everything in the garden is lovely. Well, not exactly, no. Just as the rock closed about him, Montmorency managed to get a message off to Mission Implausible, the scruffiest bunch of anarchical heroes ever to disgrace the pages of a fantasy novel. Never mind their addiction to beer and gratuitous violence. Never mind their cavalier attitude to property that isn't bolted down. And never mind the fact that Andrew Cruickshank, their mercurial magic user, combines the reliability of the weather forecast with the destructive potential of Chernobyl. The big question is whether Mission Implausible can get their production of Blood on the Rooftops, Blood on the Tiles into workable shape by opening night. And get the Guild of the Black Mages sorted out too, of course. Ponsonby doesn't know anything about their play, but he does know Cruickshank and his band of hooligans are on the way, and so does Titus Handcarte. Ponsonby can call upon the awesome occult forces of the Guild, and Handcarte has at his beck and call the economic and military might of East Castellian, so they're confident. Playing at home, they should be able to send Mission Implausible down to a four-nil defeat, at the very least. But there are a number of things they've left out of their calculations. They haven't reckoned on the power of an aroused student body. They haven't understood the influence of thousands of years of theatrical tradition. They haven't the faintest idea of just how implacably devious, disruptive, and destructive Mission Implausible can be. And they've totally neglected air defence. Mission Implausible doesn't bother with calculation. When they're not in rehearsals or instigating disgraceful scenes at disreputable taverns, they get to work fomenting student unrest and bombarding the Guild precincts with surplus theatrical equipment while Andrew Cruickshank infiltrates the Guild itself in search of Montmorency. All the ingredients are there for one of the most shambolic episodes ever to be expunged from Guild records.
