business positive quotes: Daily Motivational Quotes Susan A. Enns, 2011-10-18 This is a collection of my favourite motivational quotes all in one place! Some are sales related, some are business related, but most are simply life related. They are in no particular order, just a random thought for each day of the year to help keep you on a positive note. If the old saying misery loves company is true, then motivation must breed happiness! I have spent my entire career, in one form or another, in sales. As such, I have dealt with rejection almost every day of my working life. Don't get me wrong, I have had a very successful career, but no sales person hears yes all the time. In fact,

it is just the opposite. We hear no many more times than we hear yes. In sales, rejection is just something we deal with every day. When we let it get us down, it shows to everyone we meet, including our customers, our colleagues and our family. Essentially, our negative attitude becomes our worst enemy. Even if you are not in sales, if you let your negative thoughts get the best of you, you are your own worst enemy too. Given my profession, I have been asked many times how do I stay positive? It can't be easy to keep the right attitude when you have to deal with rejection every day, right? Yes, actually, it can be. I stay positive because I choose to stay positive. I actually make a conscious effort to not be negative and to only be positive. I discovered long ago that a motivational quote always puts me in the right frame of mind. I started searching the internet for a daily quote that made me smile or motivated me in some way. Each day I did this, I found that I became better mentally prepared to tackle the day. More importantly, I was just happier! I started to share what I found online. I would put a daily motivational quote in my Facebook and LinkedIn statuses, I would blog about them, and I would tweet them on Twitter. Friends, family, and business associates all enjoyed them so much they started calling me The Quote Lady. More importantly, everyone's positive attitude seemed to be contagious. The more the motivation spread, the more everyone became motivated! That's when I decided to pull together a collection of my favorite motivational quotes all in one place, and this eBook was created. I hope you enjoy them as much as I do. Remember, your thoughts control your outcomes and you control your thoughts. So choose wisely! Thank you for your everyday contribution to our success! - Cyril K. It is really amazing for what you are doing in helping others stay positive and overcome their challenges, whatsoever small or big they may be - Parmod R. Susan inspires me to do better and help others. - Loretto C. Like it...Very Motivating - Jeff W.

business positive quotes: The Ultimate Marketing Toolkit Paula Peters, 2006-04-17 A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

business positive quotes: Managing Emotions in Organizations Riikka Harikkala-Laihinén, 2020-11-10 This book takes a fresh perspective to acquisition research, focusing on employee emotions. It builds on the human-centric approach to mergers and acquisitions, where previous literature has concluded that emotions are important, yet few studies have explored them in depth. To fill the gap, this book takes emotion research in organizations as its starting point, exploring what emotions are, how they emerge, and how they influence organizational contexts, such as acquisitions. Whereas previous acquisition literature has concluded that emotions are most often negative and lead to complications, this book shows how emotions can become a positive force driving post-acquisition change and unification. This book combines multidisciplinary theoretical insights with practical real-world case studies to provide detailed analysis and approachable findings that will appeal to academics and practitioners alike.

business positive quotes: Storytelling for Sustainability in Higher Education Petra Molthan-Hill, Heather Luna, Tony Wall, Helen Puntha, Denise Baden, 2020-03-25 To be a storyteller is an incredible position from which to influence hearts and minds, and each one of us has the capacity to utilise storytelling for a sustainable future. This book offers unique and powerful insights into how stories and storytelling can be utilised within higher education to support sustainability literacy. Stories can shape our perspective of the world around us and how we interact with it, and this is where storytelling becomes a useful tool for facilitating understanding of sustainability concepts which tend to be complex and multifaceted. The craft of storytelling is as old as time and has influenced human experience throughout the ages. The conscious use of storytelling in higher

education is likewise not new, although less prevalent in certain academic disciplines; what this book offers is the opportunity to delve into the concept of storytelling as an educational tool regardless of and beyond the boundaries of subject area. Written by academics and storytellers, the book is based on the authors' own experiences of using stories within teaching, from a story of "the Ecology of Law" to the exploration of sustainability in accounting and finance via contemporary cinema. Practical advice in each chapter ensures that ideas may be put into practice with ease. In addition to examples from the classroom, the book also explores wider uses of storytelling for communication and sense-making and ways of assessing student storytelling work. It also offers fascinating research insights, for example in addressing the question of whether positive utopian stories relating to climate change will have a stronger impact on changing the behaviour of readers than will dystopian stories. Everyone working as an educator should find some inspiration here for their own practice; on using storytelling and stories to co-design positive futures together with our students.

business positive quotes: The Two Sides of the Business Family Arist von Schlippe, Tom A. Rüsen, Torsten Groth, 2021-01-04 This book focuses on a central success factor for family businesses: maintaining the decision-making ability over generations while not jeopardizing the business due to family conflict, inefficient governance structures, or lack of identification. The authors identify that this is not as easy as the endeavor to bring two social systems together with contradicting logic (family and business) leads to many dangerous pitfalls. This book presents outcomes of a unique research project in which family managers of eleven of the oldest and largest German family businesses, at least the fourth generation, met for more than three years on a regular basis and presented the essence of their family governance structures to each other and to the authors. It was a joint "learning journey" that admits identifying twelve core questions that these families had been answering to keep up the relationship between family and business successfully over generations. Obviously, there is no "right" answer to these questions. The key to success is rather engaging the families in a process to find out their own answers and make them aware of the

“two sides”: being a family is different from being a business family.

business positive quotes: Combat Leader to Corporate Leader Chad Storlie, 2010-04-09 A business professional who is a 19-year U.S. Army combat veteran offers this one-of-a-kind book showing fellow veterans how to leverage their military experience and training to produce superior business and career results. Military training and experience provide a superb foundation for excelling in business. The executive search firm Korn Ferry discovered in a 2006 study that CEOs with military experience out-performed their civilian peers. *Combat Leader to Corporate Leader: 20 Lessons to Advance Your Civilian Career* outlines 20 lessons describing how veterans can apply their universal military training to succeed and excel in the business world. *Combat Leader to Corporate Leader* teaches Army, Navy, Marine, and Air Force veterans and non-military professionals how to apply successfully the skills that have made the U.S. military successful. The book is divided into four sections and aligned with military combat planning tools: (1) understanding the company and business environment, (2) planning a robust solution, (3) rigorous execution to meet the plan's goals, and (4) improving people and process for better results. Each section offers specific examples, advice, and formats that directly address the challenge of translating military experience into business skill sets. Among other issues, the book will teach vets how to showcase military experience and value to get hired, how to apply combat experience to a career in business, how to avoid the mistakes veterans commonly make in the workplace, and how to customize and translate their own unique military experiences to their business. At the conclusion of the book, veterans and non-veterans alike will have the skills to understand, plan, execute, and improve their careers and business ventures.
