care com business: Unfinished Business Anne-Marie Slaughter, 2015-09-29 Includes a new afterword by the author • “Slaughter’s gift for illuminating large issues through everyday human stories is what makes this book so necessary for anyone who wants to be both a leader at work and a fully engaged parent at home.”—Arianna Huffington NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST, NPR, AND THE ECONOMIST When Anne-Marie Slaughter accepted her dream job as the first female director of policy planning at the U.S. State Department in 2009, she was confident she could juggle the demands of her position in Washington, D.C., with the responsibilities of her family life in suburban New Jersey. Her husband and two young sons encouraged her to pursue the job; she had a tremendously supportive boss, Secretary of State Hillary Clinton; and she had been moving up on a high-profile career track since law school. But then life intervened. Parenting needs caused her to make a decision to leave the State Department and return to an academic career that gave her more time for her family. The reactions to her choice to leave Washington because of her kids led her to question the feminist narrative she grew up with. Her subsequent article for The Atlantic, “Why Women Still Can’t Have It All,” created a firestorm, sparked intense national debate, and became one of the most-read pieces in the magazine’s history. Since that time, Anne-Marie Slaughter has pushed forward, breaking free of her long-standing assumptions about work, life, and family. Though many solutions have been proposed for how women can continue to break the glass ceiling or rise above the “motherhood penalty,” women at the top and the bottom of the income scale are further and further apart. Now, in her refreshing and forthright voice, Anne-Marie Slaughter returns with her vision for what true equality between men and women really means, and how we can get there. She uncovers the missing piece of the puzzle, presenting a new focus that can reunite the women’s movement and provide a common banner under which both men and women can advance and thrive. With moving personal stories, individual action plans, and a broad outline for change, Anne-Marie Slaughter reveals a future in which all of us can finally finish the business of equality for women and men, work and family. “I’m confident that you will be left with Anne-Marie’s hope and optimism that we can change our points of view and policies so that both men and women can fully participate in their families and use their full talents on the job.”—Hillary Rodham Clinton

care com business: The Power Pause Neha Ruch, 2025-01-14 INSTANT USA TODAY BESTSELLER! A paradigm-shifting guide to career breaks after kids that rebrands stay-at-home parenthood for a new generation of women and families. So, what do you do? When Neha Ruch had to answer this seemingly innocent question for the first time after leaving her corporate job to care for her infant son, she drew a shameful blank. She couldn't find the words to describe this new stage of life she'd just embarked on. She wasn't a 1950s June Cleaver type, nor was she one of today's updated stereotypes. (Craft Project Mom? Exhausted-in-Sweatpants Mom?) How, then, was she to navigate this identity shift? Frustrated, Ruch embarked on a mission to rebrand the stay-at-home mother for a new generation of women who don't want to leave their ambition behind just because they decide to pause or change their careers post-kids. Her online community has become the leading voice and resource for women navigating this transition, and in her first book, *The Power Pause*, Ruch addresses all the questions women face at this inflection point: Can I afford to pause? Who am I without my career identity? How do I find meaning in the role? And can I ever transition back to paid work? With expert advice and diverse stories of stay-at-home mothers who buck every stereotype, as well as interactive exercises to help the reader plot a course for the long term, *The Power Pause* is an essential handbook for a new generation of caregivers.

While asking how care and uncare are embedded in the urban condition, the book focuses on inequalities in caring relations and the ways they are acknowledged, reproduced, and overcome in various spaces, discourses, and

practices. This book provides a pathway for urban scholars to start engaging with approaches to conceptualize care in the city through a critical-reflexive analysis of processes of urbanization. It pursues a systematic integration of empirical, methodological, theoretical, and ethical approaches to care in urban studies, while overcoming a crisis-centered reading of care and the related ambivalences in care debates, practices, and spaces. These strands are elaborated via a conceptual framework of care and situated within broader theoretical debates on cities, urbanization, and urban development with detailed case studies from Europe, the Americas, and Asia. By establishing links to various fields of knowledge, this book seeks to systematically introduce debates on care to the interconnecting fields of urban studies, planning theory, and related disciplines for the first time.
