Reeling from the devastation of Dust & Decay, Benny Imura and his friends plunge deep into the zombie-infested wastelands of the great Rot & Ruin. Benny, Nix, Lilah, and Chong journey through a fierce wilderness that was once America, searching for the jet they saw in the skies months ago. If that jet exists then humanity itself must have survived...somewhere. Finding it is their best hope for having a future and a life worth living. But the Ruin is far more dangerous than any of them can imagine.

Fierce animals hunt them. They come face to face with a death cult. And then there's the zombies—swarms of them coming from the east, devouring everything in their paths. And these zoms are different. Faster, smarter, and infinitely more dangerous. Has the zombie plague mutated, or is there something far more sinister behind this new invasion of the living dead? One thing Benny and his companions can't afford to forget: In the great Rot & Ruin, everything wants to kill you.

capital 1 business: *The Liability of the Holding Company for the Debts of its Insolvent Subsidiaries* Andrew Muscat, 2016-12-05 This work deals with the liability of the holding company for the debts of its insolvent subsidiaries. In analyzing the current position under English law, the work challenges as outmoded and inadequate the virtual dogma that a holding company is not answerable for the debts of its insolvent subsidiaries. The study identifies four separate and distinct types of behavioural practices within corporate groups which may prejudice the interests of external creditors or otherwise constitute an abuse of the corporate form; the subservient subsidiary situation; the inadequately financed subsidiary situation; the integrated economic enterprise situation; and the group persona situation. After weighing the various arguments for and against a change in the law and concluding that reform is called for, the study proceeds to submit some radical proposals for reform. The basic thrust of the reform proposals is that in a number of well-defined situations entity law should give way to an enterprise analysis and holding company liability should be imposed for the debts of insolvent subsidiaries.
