## Overview of the Business Program

Cal State Fullerton's business program is housed within the Mihaylo College of Business and Economics, one of the largest business schools in California. This college is well-regarded for its commitment to student success and has received accreditation from the Association to Advance Collegiate Schools of Business (AACSB), a prestigious recognition that only a small percentage of business schools worldwide achieve. The curriculum is designed to equip students with essential skills in areas such as management, finance, marketing, and entrepreneurship.

The business major emphasizes both theoretical knowledge and practical application. Students engage in real-world projects, internships, and networking opportunities that enhance their learning experience. Furthermore,

the program encourages collaboration among students, fostering an environment where diverse ideas and perspectives are valued.

## **Degree Requirements**

To earn a degree in business from Cal State Fullerton, students must complete a total of 120 units, which includes general education courses, core business courses, and electives. The program is structured to ensure that students gain a well-rounded education while also allowing for specialization in their area of interest.

## **Core Curriculum**

The core curriculum consists of foundational courses that cover essential topics in business. Key subjects include:

- Principles of Accounting
- Business Law
- Managerial Finance
- Marketing Principles
- Management Theory and Practice
- Business Statistics

These courses provide students with a solid foundation in the various facets of business, enabling them to understand how different functions work together within an organization.

## **Electives and Special Topics**

In addition to core courses, students are required to take elective courses that allow them to tailor their educational experience. These electives can range from international business to digital marketing, giving students the flexibility to focus on specific areas of interest. The choice of electives is crucial as it can significantly influence a student's career trajectory.

## **Specializations and Concentrations**

Cal State Fullerton offers several specializations within the business major that allow students to focus their studies on particular fields. Popular

concentrations include:

- Finance
- Marketing
- Human Resources Management
- Management Information Systems
- International Business

Each of these specializations includes targeted coursework designed to deepen students' understanding and skills in that specific area. This focused approach helps prepare graduates for specialized roles in their chosen fields.

## **Faculty and Resources**

The faculty at Cal State Fullerton is composed of experienced professionals and scholars who bring a wealth of knowledge to the classroom. Many faculty members have real-world business experience, allowing them to provide students with insights that bridge theory and practice. Students can benefit from mentorship opportunities, guidance on career paths, and access to industry networks.

In addition to outstanding faculty, students have access to a variety of resources, including state-of-the-art facilities, research centers, and career services. The college also offers workshops, seminars, and networking events that connect students with industry leaders and potential employers.

## **Career Opportunities**

Graduates of the Cal State Fullerton business major are well-prepared to enter the job market and pursue a wide array of career paths. The skills acquired during their studies allow them to thrive in various roles, including:

- Financial Analyst
- Marketing Manager
- Human Resources Specialist
- Business Consultant

- Sales Manager
- Operations Manager

The robust alumni network and the college's strong connections with local businesses further enhance job placement opportunities for graduates. Many students secure internships during their studies, often leading to full-time employment post-graduation.

## **Benefits of Attending Cal State Fullerton**

Choosing to pursue a business major at Cal State Fullerton comes with numerous advantages. The university's location in Orange County provides students with access to a vibrant economic hub, featuring a diverse range of industries. This geographical advantage translates into plentiful internship and employment opportunities.

Furthermore, the diverse student population enriches the learning environment, allowing students to collaborate with peers from various backgrounds and perspectives. This exposure is invaluable in today's global business landscape, where cultural competence and collaboration are key to success.

## **Conclusion**

Cal State Fullerton's business major stands out for its comprehensive curriculum, dedicated faculty, and strong career support. With a focus on both theoretical foundations and practical applications, students are well-equipped to navigate the complexities of the business world. Whether planning to specialize in finance, marketing, or human resources, students will find that the skills and knowledge gained through this program are essential for achieving their career goals. The combination of academic rigor, real-world experience, and a supportive community makes Cal State Fullerton an excellent choice for aspiring business professionals.

**cal state fullerton business major: American Universities and Colleges** Praeger Publishers, 2010-04-16 For well over a half century, American Universities and Colleges has been the most comprehensive and highly respected directory of four-year institutions of higher education in the United States. A two-volume set that Choice magazine hailed as a most important resource in its November 2006 issue, this revised edition features the most up-to-date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams. In addition, the set serves as an indispensable reference source for parents, college advisors, educators, and public, academic, and high school librarians. These two volumes provide extensive information on 1,900 institutions of higher education, including all accredited colleges and universities that offer at least the baccalaureate degree. This essential resource offers pertinent, statistical data on such topics as tuition, room and board; admission requirements; financial aid; enrollments; student life; library holdings; accelerated and study abroad programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.

**cal state fullerton business major: Early Development and Leadership** Susan E. Murphy, Rebecca Reichard, 2012-03-29 Today we often look to our leaders in business, government, or the social sector, to make effective decisions in a complex world. Whether they are asked what steps to take to improve competitiveness in a global economy or to make tough ethical choices, well-trained leaders are critical to organizational effectiveness. Although we know much about leadership

development for individuals after they take their first job, we know relatively little about their earlier experiences that contributed to their interest in leadership or subsequent effectiveness as leaders. This volume brings together researchers who explore leadership at different points before individuals enter the workforce and asks important questions surrounding definitions of leadership behavior, necessary leader skills and age-related leader tasks, factors contributing to development of leader identity, and ways to improve the process of leader development. With contributions from well-known leadership researchers such as Robert Sternberg, Howard Gardner, Bruce Avolio, and Susan Komives, the volume shows research evidence for factors such as early childhood and youth experiences on leadership development, which have implications for the way we understand and train leadership in today's organizations.

**cal state fullerton business major: My Seven Sons and How We Raised Each Other** Don Diamont, 2025-05-01 Soap star Don Diamont's most interesting storyline to date is being the real-life father and ringleader of his seven rambunctious boys. Called a daytime deity by Soap Opera Digest, Don Diamont is best known as the dashing publishing titan with steel abs, Dollar Bill Spencer, on the most-watched daytime drama in the world, *The Bold and the Beautiful*. But all of that takes second place to his most important role to date: father to seven boys. By turns hilarious and poignant, *My Seven Sons and How We Raised Each Other* is a family memoir for our time. Don writes with openness and courage about the ways his family came together: by marriage, divorce, the death of his sister, and marriage again. Today's blended families might look different from the households of even a few decades ago, but the first dates, first cars, busting curfew, talking back, grounding, broken hearts, laughs, tears, and the love are the same. From his childhood growing up in LA, to his Zoolander phase as a model in both Paris and Los Angeles, to the iconic place he now occupies in daytime television, Don also gives us a glimpse into a life that at times could have been scripted for a soap opera. And, with brutal honesty, he tells of the personal devastation he suffered after the deaths of his father, brother, and sister. *My Seven Sons* is required reading for everyone who is a parent, and all those who have one.
