business woman quote: Becoming Elizabeth Arden Stacy A. Cordery, 2024-09-03 A sweeping biography of one of the most influential and successful business-women in American history, BECOMING ELIZABETH ARDEN opens the Red Door to a world of wealth, glamor, and the profitable business of beauty Elizabeth Arden was a household name on six continents and a millionaire several times over before her death in 1966. Arden counted British royalty and social elites from the overlapping worlds of New York, Hollywood, London, and Paris among her clients.

She revolutionized skin care and cosmetics, making it acceptable for all women to embrace glamour and wear makeup—not just actresses and prostitutes. She created a successful international business empire before women gained the vote and at a time when virtually no woman owned or ran a national company. She developed the first luxury spa and insisted on a holistic understanding of health and beauty. Unconventional and driven, Arden fervently believed that every woman could be beautiful. Acclaimed biographer Stacy Cordery does full justice to one of America's greatest entrepreneurs. Canadian-born Florence Nightingale Graham turned herself into Elizabeth Arden, using her uncanny sense of the possible to take full advantage of everything New York City offered, building her company and becoming one with her brand. In an astounding rags-to-riches tale, Elizabeth Arden came to personify sophistication and refinement. Her hard work and innovation made makeup, fitness, and style not only acceptable but de rigueur. Arden prospered throughout the Depression, reimagined women's needs during two World Wars, and by pioneering new approaches to marketing and advertising, ushered beauty into the modern era. Cordery delivers a compelling picture of a modern CEO whose career provides a model for aspiring businesses to this day.

business woman quote: Women and Global Entrepreneurship Maura McAdam, James A. Cunningham, 2021-04-05 Entrepreneurship in context has been described as the third wave in entrepreneurship research. Accordingly, specific socio-economic, political, market, and institutional contexts are key to fostering, enabling, and enacting entrepreneurial activity and behaviours. These contexts shape everyday entrepreneurship experiences. This book is based on the premise that how gender is articulated within the entrepreneurial debate has to acknowledge context. However, context is not a construct that only applies to those economies and situations that differ from the presumed norm of Western developed nations. Adopting a more critical appraisal of how context is positioned within current theorizing around gender and entrepreneurial behaviours offers potential to progress debate whilst acknowledging that competing and contrasting contextual influences require clearer recognition. This book, therefore, has the potential to unearth credible and robust approaches to further examining contextualisation and women entrepreneurship that advances new insights. By exploring and examining how contextual influences shape women's entrepreneurship, this book challenges the assumption that women entrepreneurship is the same throughout the world. It will be of value to researchers, academics, and students with an interest in entrepreneurship, political economy, economics, and public policy.
