From a peasant tax revolt through the new consumerism (ads on television!) to the closeted world of Chinese gays, Jan Wong's *China* is a highly personal account of a country in transition. Its perspective is shaped by the author's six-year reporting stint, her life in Beijing in the '70s as a student and a Maoist, and her return visit to China in the spring of 1999. Employing humour and behind-the-scenes detail, Jan Wong brilliantly weaves her adventures into a rich journalistic tapestry.

china business class flight: Three Dangerous Men: Russia, China, Iran and the Rise of Irregular Warfare Seth G. Jones, 2021-09-07 How three key figures in Moscow, Beijing, and Tehran built ruthless irregular warfare campaigns that are eroding American power. In *Three Dangerous Men*, defense expert Seth Jones argues that the US is woefully unprepared for the future of global competition. While America has focused on building fighter jets, missiles, and conventional warfighting capabilities, its three principal rivals—Russia, Iran, and China—have increasingly adopted irregular warfare: cyber attacks, the use of proxy forces, propaganda, espionage, and disinformation to undermine American power. Jones profiles three pioneers of irregular warfare in Moscow, Beijing, and Tehran who adapted American techniques and made huge gains without waging traditional warfare: Russian Chief of Staff Valery Gerasimov; the deceased Iranian Major General Qassem Soleimani; and vice chairman of China's Central Military Commission Zhang Youxia. Each has spent his career studying American power and devised techniques to avoid a

conventional or nuclear war with the US. Gerasimov helped oversee a resurgence of Russian irregular warfare, which included attempts to undermine the 2016 and 2020 US presidential elections and the SolarWinds cyber attack. Soleimani was so effective in expanding Iranian power in the Middle East that Washington targeted him for assassination. Zhang Youxia presents the most alarming challenge because China has more power and potential at its disposal. Drawing on interviews with dozens of US military, diplomatic, and intelligence officials, as well as hundreds of documents translated from Russian, Farsi, and Mandarin, Jones shows how America's rivals have bloodied its reputation and seized territory worldwide. Instead of standing up to autocratic regimes, Jones demonstrates that the United States has largely abandoned the kind of information, special operations, intelligence, and economic and diplomatic action that helped win the Cold War. In a powerful conclusion, Jones details the key steps the United States must take to alter how it thinks about—and engages in—competition before it is too late.

china business class flight: *China's Three Gorges, Xi'an and the Terracotta Warriors* Simon Foster, Vivien Loughheed, 2009-10-15 This guide is based on our much larger (530-page) guide to Bolivia. Here we zero in on La Paz, the capital, and all of the nearby attractions. La Paz is not a big city on the world scale, but it is certainly one of the more interesting ones. Built in a bowl created by the Choqueyapu River, the upper parts of the city stand 1,645 ft/500 m above the lower sections. Unlike any other city in the world, the richer neighborhoods are located at the lower levels. This is partly due to the fact that it is warmer and easier to breathe at the lower altitudes. Also, the pinnacles and spires of conglomerate rock and clay that have been sculptured by wind and water make a dramatic backdrop for those living below them. The higher up the bowl one goes, the more unstable the land becomes and the more likely a landslide will occur. The plazas, squares and Prado are well kept in La Paz and even in the depth of winter plants are tended to help make the city attractive. Street cleaners are out every day and local merchants regularly wash the area in front of their shops. On a clear day, Mount Illimani, a snow-covered monolith, can be seen as a sentry towering over the city. Valley of the Moon is six miles/10 km from the center of La Paz and can be reached by joining a tour or by taking micro bus #11 or minibus #231 or 273 to Mallasilla. The hillside features a maze of clay canyons and pinnacles that have been sculpted by wind and rain. Narrow trails through the landscape take about an hour to walk. There is also a cactus park just before the entrance. The park overlooks a gorge and has paths leading around numerous types of cacti. As you continue up the road you will come to Parque Nacional Mallasa with its bird observatory and, across the road, the zoo area. The road passes under natural stone bridges and past Chulpani's Red Hill. There is no mistaking which hill this is. From Mallasa one can see across

the river to the highest golf course in the world. Devil's Tooth or Muela del Diablo is a huge volcanic plug sticking out of the landscape to a height of 13,000 ft/3,950 m. Several trails go to the right; follow the one that obviously leads to the village. From there, go to the left for .3 miles (about half a kilometer), to the foot of the rock. Climbers are occasionally found on the east face. Canyon de Palca, or Valle de Animas, is a deep canyon that was carved by the Rio Palca centuries ago. To get there, take a bus going to Huni from Plaza Belzu on Avenida Mexico in San Pedro. There are huge pinnacles and wind-carved conglomerates. The trail continues along the bottom of the canyon to a natural obelisk. Just past the obelisk is a rock that has the appearance of a human hiding in a cave. The rock is called the hermit of the canyon. Continue along the canyon to its end and climb to your left up to the village of Palca. This is a long day-hike. All of the detailed information you need is here about the hotels, restaurants, shopping, sightseeing. But we also lead you to new discoveries, turning corners you haven't turned before, helping you to interact with the world in new ways. That's what makes our Adventure Guides unique. An excellent addition to the Adventure Guide series, packed with detail, from where to stay and eat, to where to shop for local crafts and how to enjoy historic sites. This guide surveys the wildlife and outdoor opportunities of the country, which range from tropical jungle to high plains deserts. Hiking and viewing opportunities blend with cultural insights. Highly recommended. - The Midwest Book Review.
