In the book, the author offers an extensive discussion on (i) the key elements of the sector — types and features of the PEIs, (ii) the regulatory framework for private education, (iii) students' aspiration and the impact of the ASPIRE report on PEIs, and (iv) the provision of external degree programme through transnational partnership. The book also tackles the hotly debated discussion in relation to academic quality and standard of PEI courses. The author identifies the reasons — some of them have more characteristics of a myth — and suggests a number of ways to overcome the issues and challenges.
