citizen business credit card: Citizenship 2.0 Yossi Harpaz, 2019-09-17 Citizenship 2.0 focuses on an important yet overlooked dimension of globalization: the steady rise in the legitimacy and prevalence of dual citizenship. Demand for dual citizenship is particularly high in Latin America and Eastern Europe, where more than three million people have obtained a second citizenship from EU countries or the United States. Most citizenship seekers acquire EU citizenship by drawing on their ancestry or ethnic origin; others secure U.S. citizenship for their children by strategically planning their place of birth. Their aim is to gain a second, compensatory citizenship that would provide superior travel freedom, broader opportunities, an insurance policy, and even a status symbol. Drawing on extensive interviews and fieldwork, Yossi Harpaz analyzes three cases: Israelis who acquire citizenship from European-origin countries such as Germany or Poland; Hungarian-speaking citizens of Serbia who obtain a second citizenship from Hungary (and, through it, EU citizenship); and Mexicans who give birth in the United States to secure American citizenship for their children. Harpaz reveals the growth of instrumental attitudes toward citizenship: individuals worldwide increasingly view nationality as rank within a global hierarchy rather than as a sanctified symbol of a unique national identity. Citizenship 2.0 sheds light on a fascinating phenomenon that is expected to have a growing impact on national identity, immigration, and economic inequality.

citizen business credit card: India's National Security Satish Kumar, 2015-07-03 This fourteenth volume of India's National Security Annual Review intensively analyses India's national security with respect to the changing internal and external dynamics. In the global environment, the situation is characterised by rising tensions between United States and Russia, intensified rivalry between United States (US) and China, and increasing cooperation between China and Russia. For India which seeks peaceful growth to emerge as a major power, this poses severe diplomatic challenges. This volume discusses the complexity of these challenges and the deftness with which

India gets the best out of its strategic partnerships with the US and Russia while warding off the transgressions of a mighty adversary like China. It also studies the impact of internal convulsions and external intrusions on India's security from South Asian nations such as Afghanistan, Bangladesh, Nepal and Sri Lanka. Examining the field of internal security, the essays carry rare insights into the causes of expansion of Naxalite violence in tribal areas and the dynamics of conflict resolution in the Northeast, as well as India's deep concern as a growing power with its economic slowdown in the recent past, and energy and cyber security. Bringing together contributions from eminent scholars and diplomats, the volume will be indispensable for policymakers, government think tanks, defence and strategic studies experts, as well as students and researchers of international relations, foreign policy and political science.

citizen business credit card: USA GREATEST INVENTION MODERN DIRECT DEMOCRACY Albert Kluss, 2022-07-14 My career and expertise in political scientist's work have led me to examine our current US political system, which is a duopoly, as a republican democracy, meaning we elect one of two major political parties (Democrats or Republicans) as representatives, who vote on US government laws, policies, oversight, budget, war, entitlements, etc. Again, my job is to examine our entire US political system. Note, all the problems within our current US political system, replace each problem with an alternative solution for all root-cause problems within our republic, a democracy, and our representatives. So I invented a new, modern independent US political system, Direct Democracy, which I named the PPP system, which means People's Political Party system, where US citizen voters have new citizenship duties, including the transformation of modern education and Direct Democracy, where each US citizen voter replaces US government Congress work, which will now be done by US voters, who are paid a yearly salary of \$44,444. Each US citizen voter receives Direct Democracy transformation phone app (2024); plus, US voters receive 1 percent Congress plans of health care. Now, each US voter in Direct Democracy is transformed into the 1 percent in 2024 and controls Direct Democracy committee assignments that were controlled by Congress, now controlled by US voters, firing Congress in 2024 forever—all by Direct Democracy (DD)! Each US Voter will receive a check on April 30th 2025 at tax time by Direct Democracy Enterprise Pays each voter thru Modern Social Security Checks & Is yearly Salary For Each US Citizen by, Infused Capitalism, means US Government & Necessary Businesses are created that profit each US Citizen. citizen business credit card: The Citizen's Guide to Mediation and Arbitration Doris Rebhorn Spies, 2014-07-17 Virtually all Americans have signed many legal documents that contain mediation and/or arbitration clauses. All Americans should know that once you have signed a contract with an arbitration clause, you are legally obligated to submit any conflicts to an arbitrator, and you will not be able to file a lawsuit within the public court system on the same topic of dispute. Mediation and arbitration clauses are often found in employment agreements, medical forms, financial contracts, business contracts, mortgage agreements and credit card contracts. Mediation and arbitration have been around as long as there have been conflicts between people. For centuries, parties in conflict have asked others to help them resolve a conflict that they cannot resolve themselves. Of course, these ADR (Alternative Dispute Resolution) processes have evolved over the years. But would you know what to do if you receive a notice to arbitrate a dispute? Did you know that if you have signed a contract with an arbitration clause that you can be forced to arbitrate a dispute? Do you know how

to prepare for a mediation session or an arbitration session? This book is written for the average Joe or Josephine in the USA who has probably already signed multiple contracts with mediation or arbitration clauses. It contains the basic facts about mediation and arbitration that should be known and understood by all USA citizens. Armed with this information, you will know whether or not you want to sign contracts with arbitration clauses in the future, and if you find yourself in a legal conflict situation, you will be more prepared to work with your attorney to resolve your situation.
