

doctor of business administration liberty university

doctor of business administration liberty university offers an exceptional pathway for aspiring leaders seeking to elevate their careers in the dynamic field of business administration. This program, renowned for its commitment to academic excellence and practical application, equips students with the skills necessary to navigate complex business challenges and drive organizational success. In this article, we will explore the specifics of Liberty University's Doctor of Business Administration (DBA) program, its curriculum, faculty, and unique features that set it apart from other institutions. Additionally, we will discuss the potential career opportunities available to graduates, the application process, and the benefits of obtaining a DBA degree.

The following sections will provide a comprehensive overview of the Doctor of Business Administration at Liberty University, guiding prospective students through the key elements of this prestigious program.

- Overview of the DBA Program
- Curriculum Highlights
- Faculty and Academic Support
- Career Opportunities for Graduates
- Application Process and Requirements
- Benefits of a DBA Degree

Overview of the DBA Program

The Doctor of Business Administration (DBA) program at Liberty University is designed for experienced professionals who aspire to enhance their expertise and leadership capabilities in the business realm. This program emphasizes practical application, critical thinking, and research-oriented skills, preparing students to address real-world business challenges effectively.

The DBA program typically blends theoretical knowledge with hands-on experiences, allowing students to apply what they learn in their careers. The focus on ethical leadership and decision-making aligns with Liberty University's mission to cultivate leaders who are well-equipped to serve their communities and organizations with integrity.

Program Format

The DBA program is offered in a flexible format, catering to the needs of working professionals. Students can choose between online or hybrid learning options, making it easier to balance their studies with personal and professional commitments. The online format provides the convenience of studying from anywhere, while hybrid courses offer the personal touch of in-class interactions.

Duration and Credit Requirements

Students can typically complete the DBA program in three to four years, depending on their pace and course load. The program requires the completion of 60 credit hours, which includes core courses, electives, and a dissertation project that showcases their research skills and business acumen.

Curriculum Highlights

The curriculum of the Doctor of Business Administration program at Liberty University is robust and comprehensive, focusing on critical areas of business leadership and management. The coursework is designed to equip students with advanced knowledge and skills that are directly applicable to their careers.

Core Courses

The DBA program encompasses a variety of core courses that cover essential business concepts. Some of the key courses include:

- Strategic Management
- Organizational Behavior
- Quantitative Research Methods
- Financial Management
- Marketing Management

These courses help students develop a deep understanding of business operations, strategic planning, and effective management practices.

Electives and Specializations

In addition to core courses, students have the opportunity to choose electives that align with their interests and career goals. Specializations may include areas such as:

- Healthcare Management
- International Business
- Human Resource Management
- Entrepreneurship

These elective options allow students to tailor their education to their specific career aspirations and industry demands.

Faculty and Academic Support

One of the distinguishing features of Liberty University's DBA program is its dedicated faculty. The instructors are experienced professionals and scholars who bring a wealth of knowledge and real-world experience to the classroom.

Access to Mentoring and Networking

Students benefit from personalized mentorship opportunities, allowing them to connect with faculty members for guidance and support throughout their academic journey. This mentorship fosters a collaborative learning environment, enhancing the educational experience.

Furthermore, the university offers a variety of networking opportunities, connecting students with industry leaders and alumni who can provide insights and career advice.

Resources and Support Services

Liberty University provides a wealth of resources to support DBA students, including:

- Online library access

- Tutoring services
- Career services
- Writing and research assistance

These resources ensure that students have the tools they need to succeed academically and professionally.

Career Opportunities for Graduates

Earning a Doctor of Business Administration from Liberty University opens the door to various career opportunities across multiple sectors. Graduates are well-prepared for leadership roles in both private and public organizations.

Potential Career Paths

Some of the potential career paths for DBA graduates include:

- Chief Executive Officer (CEO)
- Management Consultant
- Director of Operations
- Academic Administrator
- Business Strategist

These roles leverage the advanced skills and knowledge acquired during the DBA program, positioning graduates as leaders in their respective fields.

Application Process and Requirements

The application process for the Doctor of Business Administration program at Liberty University is designed to be straightforward and accessible.

Eligibility Criteria

To be eligible for the DBA program, applicants generally need to have:

- A master's degree from an accredited institution
- Professional experience in a business-related field
- A completed application form and personal statement

These requirements ensure that the cohort consists of individuals who are committed to advancing their education and careers.

Application Steps

The application process typically involves several steps, including:

- Submitting an online application
- Providing official transcripts
- Submitting letters of recommendation
- Completing an interview if required

Prospective students are encouraged to be proactive and thorough during the application process to enhance their chances of acceptance.

Benefits of a DBA Degree

Obtaining a Doctor of Business Administration degree from Liberty University comes with numerous benefits that can significantly impact a professional's career trajectory.

Enhanced Leadership Skills

The DBA program emphasizes the development of advanced leadership skills, enabling graduates to take on high-level management positions and lead teams effectively.

Increased Earning Potential

DBA graduates often experience an increase in earning potential as they qualify for higher-level positions that command greater salaries. The investment in educational advancement can yield significant financial returns over time.

Networking Opportunities

Enrolling in the DBA program allows students to build a professional network with peers, faculty, and industry leaders. These connections can lead to collaborative opportunities, mentorship, and career advancements.

Contribution to the Field

With a focus on research and practical application, DBA graduates contribute to the advancement of business practices and theories, making a meaningful impact on their organizations and the broader business community.

Conclusion

In summary, the Doctor of Business Administration program at Liberty University equips students with the knowledge, skills, and networks necessary for success in the competitive business arena. The program's rigorous curriculum, experienced faculty, and robust support systems foster an environment conducive to learning and growth. As students embark on this transformative journey, they position themselves for rewarding careers and significant contributions to the field of business administration.

Q: What is the duration of the DBA program at Liberty University?

A: The DBA program at Liberty University typically takes three to four years to complete, depending on the student's pace and course load.

Q: Can I pursue the DBA program online?

A: Yes, Liberty University offers the DBA program in both online and hybrid formats, allowing for flexibility in scheduling.

Q: What are the core courses in the DBA program?

A: Core courses in the DBA program include Strategic Management, Organizational Behavior, Quantitative Research Methods, Financial Management, and Marketing Management.

Q: What kind of career opportunities can I expect after completing the DBA?

A: Graduates of the DBA program can pursue various careers, including roles such as Chief Executive Officer, Management Consultant, and Director of Operations.

Q: What are the application requirements for the DBA program?

A: Applicants must have a master's degree from an accredited institution, relevant professional experience, and submit an application form, personal statement, and letters of recommendation.

Q: Do students receive mentorship during the DBA program?

A: Yes, students have access to personalized mentorship from faculty members, enhancing their learning experience and career guidance.

Q: Is there a focus on research in the DBA program?

A: Absolutely. The DBA program emphasizes research skills, culminating in a dissertation project that showcases students' ability to conduct in-depth business research.

Q: What is the benefit of earning a DBA degree?

A: A DBA degree enhances leadership skills, increases earning potential, provides networking opportunities, and allows graduates to contribute significantly to the field of business.

Q: Are there scholarships available for DBA students?

A: Liberty University offers various financial aid options, including scholarships, for students enrolled in the DBA program.

Q: How does Liberty University support DBA students academically?

A: Liberty University provides a range of resources, including online library access, tutoring services, and writing assistance, to support DBA students in their academic endeavors.

doctor of business administration liberty university: Executive Ethics II Ronald R. Sims, Scott A. Quatro, 2016-06-01 This 2nd edition of Executive Ethics provides a variety of contemporary and timely readings squarely focused on the ethical dilemmas and challenges faced by today's C-suite executives. In addition to identifying these dilemmas and challenges, the contributors provide both knowledge and insight on how C-suite executives can proactively address such ethics issues. The contributors provide unique value propositions for the C-suite regarding the most critical ethical issues facing organizations today while also highlighting useful information for senior executives interested in integrating ethics into the leadership and management practices of their organizations. In the end, the book empowers C-suite executives to build a long-term, strategic, and enterprise-wide approach to ethics.

doctor of business administration liberty university: The Modern-Day Cyrus Rev. Robert Antwi, 2018-06-15 During the exodus from Egypt to the Promised Land, God told the Israelites that the city in which He would place his name should be their center of worship or the economic capital. But unto the place which the Lord your God shall choose out of all your tribes to put his name there, even unto his habitation shall ye seek, and thither thou shall come. (Deuteronomy 12:5) Around 1000 BC, the God of Abraham selected Jerusalem to place His name there and David to rule over His people. David became a king of ancient Israel when God selected Jerusalem to place His name and made Jerusalem the center of worship (spiritual and economic capital). But I have chosen Jerusalem that my name might be there; and have chosen David to be over my people Israel. (2 Chronicles 6:6) Therefore, God chose Jerusalem to put His name there and David to rule over His people (Israel). The Jews know their history, and Jerusalem was proclaimed the capital. On May 14, 1948, Ben-Gurion formally proclaimed the formation of Israel. Jerusalem is the capital and the largest city in Israel. Tel Aviv is Israel's economic and technology center. Jerusalem is the capital, but it has limited recognition. International bodies and many countries around the world do not recognize Jerusalem as the capital of Israel. I believe it is time for the world and international bodies to recognize Jerusalem as the capital. I believe Donald Trump won the election to declare and recognize Jerusalem as the capital of Israel. The Babylonians captured Jerusalem in 587 BC and forced all the Jewish inhabitants into exile in Babylon. That period was known as the Babylonian Captivity. Isaiah had already given prophecy about Cyrus, so the Jewish community in Babylon saw him as their liberators and assisted Cyrus's army in overthrowing the Babylonians. In 538 BC, Cyrus allowed about forty thousand Jews to return to Jerusalem, ending the Babylonian captivity. Cyrus used the funds he had acquired in conquering Babylon to rebuild the sacred temple in Jerusalem,

which was given in prophecy by Isaiah. I have declared President Donald Trump the modern-day Cyrus. Just as King Cyrus set the Israelites free from the Babylonian captivity, Donald Trump is setting Jerusalem free from the slave of unrecognition.

doctor of business administration liberty university: YOUNG PROFESSIONAL MARXIST BUSINESSMEN: A LEGACY JOSEPH SMITH, 2020-01-22 This is a liberal playhouse book of young professionals and essays about them. It is a greedy liberal playhouse.

doctor of business administration liberty university: *Inspirations from My Mother* Mike Melvin, 2022-12-22 *Inspirations from My Mother, a Journey of Faith and Endurance: An Autobiography* is an epic journey of faith and endurance of a little boy born into a polygamous family in the village of Lekong in the deep hinterland of the rain forest of Cameroon, with big dreams installed in him by his mother who got blind during his teenage years. Growing up in a poor polygamous family, Dr. Mike depended solely on his mother for everything, but his mother got blind during his first year in secondary (middle) school and died during his first year in high school. Though his mother was blind and dead, Dr. Mike refused to give up on himself and must endure all obstacles, faced his challenges, and built faith in God from his teenage age through adulthood to become the highly educated, family-loving, and responsible individual today due to the inspiration from his mother. Determined to confirm the information that his child died at birth, Dr. Mike went searching for his teenage age girlfriend and, after seven years of search, discovered his daughter who was reported dead thirty-five years ago at birth by his girlfriend's uncle. While his journey is filled with obstacles, Dr. Mike never gave up on being a family man, a loving husband, and a father. In his seven children, there is a graduate with a master's degree, one in the university, three in high school, one in middle school, and another in the vocational training academy. Dr. Mike is a grandfather to nine grandchildren. Dr. Mike is the first of his siblings to graduate from college and to have earned a terminal degree, thanks to his blind mother, endurance, and faith.

doctor of business administration liberty university: *Employee and organizational wellbeing in the new normal: Implications for the post COVID-19 era* Munwar Hussain Pahi, Umair Ahmed , Abdul Halim Abdul Majid, 2023-12-11

doctor of business administration liberty university: *Corporate Conformance and the Social License* Petter Gottschalk, Christopher Hamerton, 2025-08-04 The principal focus of *Corporate Conformance and the Social License: A Criminological Perspective* is to enhance and broaden the criminological dialogue surrounding the role of and effect of corporate conformance as a key element in the maintenance of the social license to operate. The book posits that in recent years conformance has emerged as a key component in shaping corporate behaviour and informing corporate crises. With a series of widely publicised global scandals heightening awareness of extensive and serious repercussions, revealing severe financial and environmental impacts, operational issues, and even existential concerns. This has led to a growing body of research focusing on how such crises materialise, are perceived and might be strategically managed and prevented. The book foregrounds conformance as a proactive demonstration of adherence to contemporary ethical standards of globalized business practice, with the authors offering a novel perspective that considers conformance and associated normative pressures within a criminological framework. Here, convenience theory is applied to analyse a series of important contemporary case-studies, with the research illustrating how corporations and their stakeholders have used conformance to manage, maintain and, following periods of crisis, attempt to regain their corporate license to operate. The book further explores differences in strategic conformance responses in terms of perceptions and reactions from the public, media and criminal justice system.

doctor of business administration liberty university: *Intelligent Manufacturing and Mechatronics* Radhiyah Abd. Aziz, Zulhelmi Ismail, A. K. M. Asif Iqbal, Irfan Ahmed, 2024-03-17 This book showcases a portion of the iM3F 2023 conference proceedings, focusing on the recent advancement in sustainable manufacturing and materials. It emphasizes recent progress, significant advancements, and challenges to the materials science and engineering community, along with the emergence of intelligent manufacturing engineering and technology while addressing the UN

Sustainable Development Goals. The book discusses both traditional and advanced approaches used in various sustainable manufacturing and materials applications. Readers can expect to gain a comprehensive understanding of current trends, challenges, solutions, and mitigating factors from this publication.

doctor of business administration liberty university: DAVID'S MIGHTY MEN C. David Jones, 2009-08-14 FOREWORD Every man who is a success, regardless of how gifted he may be, did not manage to achieve his goals, rank, station or wealth by his own efforts, but he is indebted to a number of key persons in his life without whose mentoring, support, and encouragement he would quite likely have been a miserable failure! * * * KING DAVID of Israel was surrounded by a magnificent corps of extraordinarily strong, courageous, unflinchingly brave and self-sacrificing men who were his confidants, his personal bodyguard, and comrades-at-arms. They were the special elite corps of fearless warriors whose devotion to their king placed his welfare and that of his kingdom above their own personal safety - every one of these champions would gladly have sacrificed his own life to honor, advance and protect the life of their king. The annals of Holy Scripture single them out by the accolade that marks them as David's Mighty Men. Their names are recorded in the Hebrew Old Testament book of II Samuel, chapter 23, verses 8-39. They were thirty-seven of the most fierce and dedicated warriors that ever lived. In a parallel list of these men which is recorded in I Chronicles 11:11-47, the number of warriors is expanded by 16 names (I Ch. 11:41-47), probably because additional men were added to replace those who had died, some in battle, giving their lives for their king. They were truly men of extraordinary valor, physical might and unwavering loyalty. They were a combination of "combat commandos," "stealth rangers," "navy seals," "green beret," "special ops" and "Delta forces" who had acquired the skills of battle demanded to survive and conquer in hand-to-hand warfare. They engaged in clandestine operations and were often outnumbered by staggering odds pitted against them, yet they stood their ground. Time after time on fields of battle they were "the last men standing." They defended their king and gained victory over their enemies by sheer strength of determination and by the inexplicable physical and mental character with which they were endowed by their God, Yahweh, Who Himself had chosen David as their king. "These are the names of David's Mighty Men: "Josheb-Basshebeth, a Tahkemomite, was the chief . . . he raised his spear against eight hundred men, whom he killed in one encounter. "Eleazar son of Dodai the Ahohite . . . he was with David when they taunted the Philistines that were gathered at Pas Dammim for battle. The men of Israel retreated, but he stood his ground and struck down the Philistines till his hand grew tired and froze to the sword. The Lord brought about a great victory that day. "Shammah son of Agee the Harrarite. When the Philistines banded together . . . Israel's troops fled from them. But Shamma took his stand in the middle of the field. He defended it and struck the Philistines down, and the Lord brought about a great victory. "Abishai the brother of Joab . . . he raised his spear against three hundred men, whom he killed. "Benaiah son of Jehoida was a valiant fighter from Kabzeel . . . he struck down two of Moab's best men. He also went down into a pit on a snowy day and killed a lion, and he struck down a huge Egyptian. Although the Egyptian had a spear in his hand, Benaiah went against him with a club. He snatched the spear from the Egyptian's hand and killed him with his own spear. And David put him in charge of his bodyguard." Abishai, Benaiah and another warrior risked their lives to break through the lines of the Philistines and draw water from the well near the gate of Bethlehem to bring back to David a drink from that well. Although he longed to taste that water, David poured it out as an offering unto the Lord rather than to drink water for which his loyal and devoted warriors risked their lives. There were also among David's Mighty Men the following warriors: "Ashel the brother of Joab, Elhanan so

doctor of business administration liberty university: Economic Crime and Conceptions of Trust Petter Gottschalk, Christopher Hamerton, 2025-03-24 Economic Crime and Conceptions of Trust explores the intricacies of the contemporary concept of trust in episodes of misconduct through an analysis of workplace deviance and crime. Grounded in detailed examinations of contemporary case studies and bolstered by original comparative fieldwork, the text takes an offender-focused approach, emphasizing the pivotal role of convenience. Adopting an

interdisciplinary perspective, the authors seek to enhance and broaden existing understanding of white-collar and corporate criminology, while also highlighting its relevance to strategic management studies. A core argument of the book is that the traditional emphasis on individual actors and notions of trustworthiness when conceptualising white-collar has waned in recent times. The authors' perspective revisits and builds upon this important foundational concept of late twentieth-century discourse within the discipline, signalling a need for a reassessment and highlighting a number of recent conceptual developments to evaluate and position trust within the twenty-first century globalized business sphere.

doctor of business administration liberty university: *Corporate Compliance* Petter Gottschalk, Christopher Hamerton, 2022-10-31 Compliance has long been identified by scholars of white-collar crime as a key strategic control device in the regulation of corporations and complex organisations. Nevertheless, this essential process has been largely ignored within criminology as a specific subject for close scrutiny – *Corporate Compliance: Crime, Convenience and Control* seeks to address this anomaly. This initiating book applies the theory of convenience to provide criminological insight into the enduring self-regulatory phenomenon of corporate compliance. Convenience theory suggests that compliance is challenged when the corporation has a strong financial motive for illegitimate profits, ample organisational opportunities to commit and conceal wrongdoing, and executive willingness for deviant behaviour. Focusing on white-collar deviance and crime within corporations, the book argues that lack of compliance is recurrently a matter of deviant behaviour by senior executives within organisations who abuse their privileged positions to commission, commit and conceal financial crime.

doctor of business administration liberty university: *When It Hurts Deep Within My Soul* Dr. Earnest Shannon, 2023-12-11 Embark on a profound journey of healing with our book as it unveils a meticulously crafted therapeutic roadmap, specifically designed to address the spiritual wounds inflicted by PTSD or any challenging circumstance that has left an enduring imprint on the soul. Delving into the depths of inner pain, this transformative guide not only offers a therapeutic plan but becomes a compassionate companion on the path to spiritual recovery. Through insightful wisdom and practical strategies, it empowers readers to navigate the complexities of their spiritual well-being, providing a beacon of hope for profound and lasting transformation.

doctor of business administration liberty university: *Donald Trump* J.D. Rockefeller, 2015-11-21 As we travel down the roads of life, we are confronted consistently with decisions that we need to make. Donald Trump, based on the trials and successes that he has faced, teaches us that every important decision we make is going to determine what will happen in our lives in the future. For the most part, we are making most of our decisions without a need to give thought as to what that outcome of that decision will be. Donald made examples for us to further understand this, such as; we have to decide when to get out of bed and what we are going to do as soon as we get up. The options may be as simple as brushing our teeth to sitting down and having a cup of coffee, and may even consist of constructing a plan for building a business. The options that we have can be extremely complex or simple, depending on the situation. Each decision we make will influence our lives and business dealings either for better or for worse.

doctor of business administration liberty university: *Corporate Compliance and Conformity* Petter Gottschalk, 2023-03-10 Traditionally, control in organizations is concerned with top-down approaches, where executives attempt to direct their employees' attention, behaviors, and performance to align with the organization's goals and objectives. This book takes a new approach by turning the problem of control upside down as it focuses on control of executives who find white-collar crime convenient. The bottom-up approach to executive compliance focuses on organizational measures to make white-collar crime less convenient for potential offenders. Rather than focusing on the regulatory formalities and staged procedures of compliance and audits, the book emphasizes the organizational challenges involved in compliance work when trusted corporate officials exhibit deviant behavior, refining, and advancing knowledge in this field by reference to contemporary international case studies and associated original evaluative research. The themes

and cases covered are carefully selected to provide the reader with an insight into professional conduct and procedural practice – the organization of corporate compliance success, failure, and corruption – with the theory of convenience placed at the fore. It is the bottom-up approach by application of convenience theory that makes the proposed book unique compared to other books on corporate compliance. This book is a valuable resource for scholars and upper-level students researching and studying in the areas of business administration, organizational behavior, corporate and white-collar crime, as well as business ethics and auditing.

doctor of business administration liberty university: Designing and Implementing HR Management Systems in Family Businesses Gnan, Luca, Flamini, Giulia, 2021-01-15 Human resource management (HRM) systems are an under-researched area in family business studies even though they arguably play an important role. To exploit their entrepreneurial orientation and achieve their goals, family firms must be willing to adopt a specific configuration of the organizational variables to succeed in the competitive environment of today. *Designing and Implementing HR Management Systems in Family Businesses* is a pivotal reference source that focuses on HRM in family businesses aiming at clarifying what HRM topics are relevant in family firms given their distinctive features, what the role of HR choices in family firms is, and how they differ in these organizations. While highlighting topics such as quality of work, generational workforce, and leadership management, this publication explores the relationship between HRM systems and the organization as well as why certain theories would be more dominant for family firms. This book is ideally designed for family businesses, managers, executives, entrepreneurs, business professionals, academicians, students, and researchers.

doctor of business administration liberty university: Lean Six Sigma Approaches in Manufacturing, Services, and Production Erdem Gerard Tetteh, Benedict M. Uzochukwu, 2014-11-30 This book presents emerging research-based trends in the area of global quality lean six sigma networks and analysis through an interdisciplinary approach focusing on research, cases, and emerging technologies--Provided by publisher.

doctor of business administration liberty university: Battling Depression in the Church Dr.Jacques Thigpen,Ph.D.,Ed.D., Dr.Edward Keith,Jr., DBA, 2018-04-03 People assume that being a Christian some may trust in a higher power and even pray to a higher power; which may lead them to believe that depression has become a major issue in their lives. The purpose of this research is to explore areas that Christians are battling with depression in their lives and how minister's perceptions may implement an evidence-based solution of assessments and psychotherapy approach on how to address depression from a spiritual point.

doctor of business administration liberty university: Digital Strategies And Organizational Transformation G Reza Djavanshir, 2023-08-02 In today's highly competitive business environments, with the rise of digital businesses and digital economy, digital strategies and organizational changes go hand in hand. Organizations that possess a robust digital strategy benefit greatly from the advancements of emerging digital technologies, and hence, making necessary organizational changes in order to maximise the benefits have become vital for their survival. According to MIT Sloan's Center for Information Systems Research (CISR), '[i]n this period of digital disruption, businesses focused narrowly on value chains are at a disadvantage'. Next-generation enterprises need to think more broadly about their business ecosystems, leverage digitization to understand their customers better, and establish options for future success. Therefore, competitive businesses have started using a variety of digital tools including artificial intelligence, alongside other digital applications, making the required changes to their organizational models and cultures to better serve their customers efficiently and effectively. This book contains a collection of chapters describing these digital strategies and how they go hand in hand with organizational changes. We solicited contributions from well-known academics from universities, business leaders, and experts within businesses and government organizations for this book. The majority of the chapters examines the necessary relationships between these two critical issues. Specifically, this book discusses how to infuse new knowledge into ongoing discourse and debates within academia and

business organizations regarding digital strategies and organizational changes, and how to accomplish seamless integration of digital tools and applications into organizational platforms in order to accomplish the required organizational changes smoothly. In summary, this book discusses the integration and implementation of digital technology and the required organizational changes to take advantage of the phenomenon of digitization. In order to create competitive advantage, leadership organizations must address the challenges of formulating and implementing robust digital strategies and simultaneously, start making the required organizational changes, as this book concludes.

doctor of business administration liberty university: Responsible Investing Matthew W. Sherwood, Julia Pollard, 2023-05-15 Responsible Investing serves as a holistic resource on Environmental, Social, and Governance (ESG) investing for undergraduate and graduate programs. It provides a thorough background and history of ESG investing, as well as cutting-edge industry developments, introducing the reader to the rapidly evolving field of responsible investing. Building on the first edition, this second edition provides updates where appropriate, as well as new emphasis on the development of standards in terminology and metrics. Opening with the background of ESG investing, the book discusses the development of ESG risks and provides an overview of ESG rating systems. It outlines the current position of ESG investing in portfolio management through granular analysis, offers insight into common investor concerns about ESG investments, presents qualitative theories, and reviews literature modeling ESG investment performance. Finally, the authors provide readers with a foundation on the development of financial models measuring risk and return, which can be used to evaluate the performance of ESG investments. This edition features updated statistics and a new chapter on regulation, reporting, and taxonomy in ESG investing, as well as new international case studies. Following a summary approach, Responsible Investing is a valuable textbook, providing a context in which upper-level students of ESG investment and sustainable finance can specialize.

doctor of business administration liberty university: A Christian Approach to Work and Family Burnout Thomas V. Frederick, Scott E. Dunbar, 2019-08-27 In A Christian Approach to Work and Family Burnout: Calling, Caring, and Connecting, Thomas V. Frederick and Scott E. Dunbar provide a Christian spiritual model to prevent and cope with burnout caused by the workplace and conflict with family. Coupled with indifference and lack of urgency, burnout eliminates a sense of purposefulness and results in psychological depletion. To counter this, Frederick and Dunbar stress the importance of connecting with God in order to understand intrinsic motivations and redefine work as a calling and means to care for others.

doctor of business administration liberty university: Navigating the Doctoral Journey Amanda J. Rockinson-Szapkiw, Lucinda S. Spaulding, 2014-06-11 This co-edited book provides doctoral candidates with a practical, cross-discipline handbook for successfully navigating the doctoral process - from initial program selection to the final dissertation defense and preparing for the faculty interview. Invited chapters from established higher education experts cover topics ranging from university and program selection, preparing for comprehensive exams and dissertation research, self-care and self-management strategies, and recommendations for maintaining personal and professional support systems. Each chapter includes strategies for success and practical tips, including how to create a study guide for the comprehensive examination, how to create a professional support group, how to talk to your family about the doctoral process, how to select and work with a chair and committee, how to identify an appropriate research design, how to navigate the IRB process, and how to master the research and writing process.
