edge painted business cards: The Historical Harpsichord Sheridan Germann, Richard Rephann, 2002 Volume IV of The Historical Harpsichord contains two monographs of major importance, Harpsichord Decoration: A Conspectus by Sheridan Germann, and A Fable Deconstructed: The 1770 Taskin at Yale by Richard Rephann. Sheridan Germann, an acclaimed scholar and practitioner in the field of harpsichord decoration, offers the first comprehensive illustrated conspectus of the subject. In Part I Ms. Germann tells us that the styles of the decoration of harpsichords (and spinets, virginals and clavichords) tended to follow contemporary furniture fashions, but usually lagged conservatively behind the prevailing fashions. Because, unlike most furniture, the instruments are often dated, they provide rare documentation of how long these styles remained in common use. This survey follows chronologically the five major regional traditions of keyboard instrument decoration-Italian, Flemish, French, German and English-but with emphasis on the international changes in taste on which each region produced its own variations. In Part II, Richard Rephann of the Yale Musical Instrument Collection describes his research into the uniquely experimental construction of the 1770 Pascal Taskin harpsichord. This essay forms a pendant to William Dowd's in Vol. I that treats the surviving instruments of the Blanchet-Taskin workshop up to 1770. The romantic provenance of the 1770 Taskin, concocted by the antique trade to enhance the

instrument's market value, is revealed as a fable.

Shevlin, 2017-03-02 Influenced by Enlightenment principles and commercial transformations, the history of the book in the eighteenth century witnessed not only the final decades of the hand-press era but also developments and practices that pointed to its future: 'the foundations of modern copyright; a rapid growth in the publication, circulation, and reading of periodicals; the promotion of niche marketing; alterations to distribution networks; and the emergence of the publisher as a central figure in the book trade, to name a few.' The pace and extent of these changes varied greatly within the different sociopolitical contexts across the western world. The volume's twenty-four articles, many of which proffer broader theoretical implications beyond their specific focus, highlight the era's range of developments. Complementing these articles, the introductory essay provides an overview of the eighteenth-century book and milestones in its history during this period while simultaneously identifying potential directions for new scholarship.

edge painted business cards: *Enough to Lose* RS Deeren, 2023-09-05 Stories of the small-town struggle to reconcile tradition with inevitable change. Winner, 2024 Michigan Notable Book! Finalist, Midwest Book Awards! In nine captivating short stories, RS Deeren presents a vivid portrait of life in rural Michigan. Small family farms are dwarfed by looming wind turbines and are transformed into corporate enterprises; polarizing local and national politics turn neighbor against neighbor and raze long-standing community allegiances; hard-working families fight for survival in a home that is increasingly unrecognizable and untenable. Exploring the limitations of rugged individualism in the face of relentless economic downturn, these stories feature recurring characters and narratives that span from the Great Flood of 1986 to the 2016 presidential election. With unflinching empathy, Deeren weaves together the colorful lives of landscapers, hunters, artists, parolees, retirees, and entrepreneurs, characters who reckon with their relationship to this unique slice of the rural Midwest. *Enough to Lose* reveals how a region resistant to change and outside intervention struggles to adapt and leaves locals feeling left behind. Deeren artfully illustrates the brutal realities of working-class rural life that are punctuated by moments of beauty, humor, and resilience.

travelled from Japan, via San Francisco, to Vancouver Island and began working in and around Victoria. His occupation: creating permanent images on the skin of paying clients. From this early example of tattooing as work, Jamie Jelinski takes us from coast to coast with detours to the United States, England, and Japan as he traces the evolution of commercial tattooing in Canada over more than one hundred years. *Needle Work* offers insight into how tattoo artists navigated regulation, the types of spaces they worked in, and the dynamic relationship between the images they tattooed on customers and other forms of visual culture and artistic enterprise. Merging biographical narratives with an examination of tattooing's place within wider society, Jelinski reveals how these commercial image makers bridged conventional gaps between cultural production and practical, for-profit work, thereby establishing tattooing as a legitimate career. Richly illustrated and drawing on archives, print media, and objects held in institutions and private collections across Canada and beyond, *Needle Work* provides a timely understanding of a vocation that is now familiar but whose intricate history has rarely been considered.

Colum McCann has found the form and voice to tell the most complex of stories, with an unexpected friendship between two men at its powerfully beating heart.”—Kamila Shamsie, author of *Home Fire* FINALIST FOR THE DUBLIN LITERARY AWARD • LONGLISTED FOR THE BOOKER PRIZE • WINNER OF THE NATIONAL JEWISH BOOK AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Independent • The New York Public Library • Library Journal Bassam Aramin is Palestinian. Rami Elhanan is Israeli. They inhabit a world of conflict that colors every aspect of their lives, from the roads they are allowed to drive on to the schools their children attend to the checkpoints, both physical and emotional, they must negotiate. But their lives, however circumscribed, are upended one after the other: first, Rami's thirteen-year-old daughter, Smadar, becomes the victim of suicide bombers; a decade later, Bassam's ten-year-old daughter, Abir, is killed by a rubber bullet. Rami and Bassam had been raised to hate one another. And yet, when they learn of each other's stories, they recognize the loss that connects them. Together they attempt to use their grief as a weapon for peace—and with their one small act, start to permeate what has for generations seemed an impermeable conflict. This extraordinary novel is the fruit of a seed planted when the novelist Colum McCann met the real Bassam and Rami on a trip with the non-profit organization Narrative 4. McCann was moved by their willingness to share their stories with the world, by their hope that if they could see themselves in one another, perhaps others could too. With their blessing, and unprecedented access to their families, lives, and personal recollections, McCann began to craft *Apeirogon*, which uses their real-life stories to begin another—one that crosses centuries and continents, stitching together time, art, history, nature, and politics in a tale both

heartbreaking and hopeful. The result is an ambitious novel, crafted out of a universe of fictional and nonfictional material, with these fathers' moving story at its heart.
