franchise business consultant job: *Moving Forward* Brig Sorber, 2022-05-03 In *Moving Forward: A Stickman's Journey for Hope and Meaning*, Brig Sorber, one of the original movers (stickmen, if you will) of TWO MEN AND A TRUCK, the largest moving franchise in North America, gives hope to those who feel they do not have the pedigree, diploma, or energy to move forward. Believing that wealth was the true key to happiness, Brig Sorber powered his way to financial success only to find it an empty and shapeless place. After a heavy bout of despair, Brig turned to his faith which had been shelved like a dusty old book. He sensed God asking him, "are you interested in a new approach?" Having nothing to lose, he gave his life to Christ and, in doing so, gave Him the business as well. Over time, Brig realized that he (like everyone) is greatly loved by God. In *Moving Forward*, Brig gives us an inside look into his very average life as God unearths truth, knowledge, and lessons from a past full of hurt and pain. Drawing from biblical principles and past mistakes and hardships, Brig shows us that we can stop believing the lies others tell us—and the lies we tell ourselves—that we are not worthy or capable of a more meaningful life. Instead, we all have the ability to move forward and make something great of our lives—if we are willing to trust in God's direction and use the specific talents he has given to each of us.

franchise business consultant job: *Peace of Mind for Your Aging Parents* Kenneth O. Doyle Ph.D., Larry K. Houk JD, 2018-06-21 Explains the most effective ways to discuss the legal and financial responsibilities that come with the end of life and tools for managing them—such as wills, trusts, estate planning, and cash management—in the context of financial psychology. Dying is complicated. It presents myriad challenges at a time when people are least prepared to deal with complexity. Typically, aging people turn to their adult children and grandchildren, their caregivers, and their professional advisors to guide them in their final years. This book is aimed directly at the children and grandchildren of aging parents to prepare them for meaningful conversations with their parents and among themselves. It gives them the tools they need to communicate knowledgeably with caregivers and professional advisors and to make important decisions with, or on behalf of, those who depend on them. The authors provide legal and financial tools and techniques, including wills and trusts, cash management, and investment planning, approaching each from both a financial and a psychological perspective. They recognize that some of the challenges that people face during their last few years of life cannot be controlled and describe not only what these tools and techniques can do but also what they can't. Those that cannot be controlled, however, can still be

managed, and the authors explain with clarity and compassion how to deal with them through psychological and spiritual engagement.
