Curran provides an in-depth look at how the momentous developments of these decades affected the entire Catholic community, including Black and indigenous Americans. He also explores the ways that Catholics contributed to the reshaping of a nation that was testing the fundamental proposition of equality set down by its founders. Ultimately, Curran concludes, the revolution that the war touched off remained unfinished, indeed was turned backward, in no small part by Catholics who marred their pursuit of equality with a truncated vision of who deserved to share in its realization.

family business new orleans cast: The Finkel Family Memoirs Murray I. Finkel, A. Allan Finkel, Finkel A Dotty Finkel and Esther Kasden, 2010-04 Both Max and Bessie arrived in the United States in 1905, after having fled the tyrannies, anti-Semitism, persecutions, poverty, and hunger of Eastern Europe. Grandpa was twenty years old at the time. He took up the trade of carpentry, as his father before him. Grandma was fifteen years old and had seen the horrors of a pogrom which had killed her mother. She was unhappy with her stepmother and lonely for her older sister, who was already in the United States. Grandpa and Grandma settled in the Lower East Side of New York, met each other, and married in 1910. They had simply moved from one shtetel to another. Yiddish was the primary language spoken at home by the entire family. By the time Murray was born in 1922, Belle was twelve, Esther was nine, and I was five years old. We had been exposed to English, which became our second language. -A. Allan Finkel Four generations after Max and Bessie's arrival in America, we Finkels have multiplied and thrived in our new home. From the Old World to Ellis Island, from the Lower East Side to Brooklyn, from Long Island and South Fallsburg, these memoirs tell our story.

family business new orleans cast: Cast Iron and the Crescent City Ann M. Masson, 2011-12-15 Familiar to both locals and visitors, cast iron artistry remains an iconic characteristic of New Orleans. This pictorial study traces the iron work's history from its origins in England in the sixteenth century, to the establishment of the Leeds Iron Foundry in New Orleans in 1825, and cast iron's evolution into contemporary times. Mass-production methods made cast iron available for numerous types of building materials, and it was used for both decorative and structural purposes. In addition to noting the application of the material for bridges, beams, and girders, the book cites cast iron's popularity for fireplace fronts, mantels, and furniture. Because it was more durable than wood and cheaper than wrought iron, cast iron was available in many patterns. Ornate illustrations depict the various patterns of cast iron that have been used over the years, while sections of the text detail the difference between cast iron and wrought iron. Photographs portray examples of cast iron throughout the city of New Orleans, with the address of each establishment as a caption. The book also provides a list of local firms that specialized in ornamental iron working.
