frost business banking: Gun Law Ralph Cotton, 2011-04-05 When a corrupt lawman starts doling out dirty justice, it will take a good gunfighter to take him down in this Ralph Cotton western. On the trail of four wanted men, Sherman Dahl, the hired gun known as the Teacher, finds his prey in the town of Kindred, New Mexico Territory. He kills all four in a saloon gunfight that leaves him wounded and in the care of soiled dove Cayes. Marshal Emerson Kern was hired to keep the peace in Kindred, and he doesn't want Dahl's kind in his town. His "gun law" forbids folks from carrying firearms, but Kern's edict is far from altruistic. No one is willing to go up against Kern and his "deputies"—the only armed men in town—from extorting every cent the townsfolk earn. No one except Sherman Dahl....

frost business banking: This Used to Be San Antonio Gil Dominguez, 2021-10-01

Wandering along the Riverwalk or exploring one of San Antonio's unique historic neighborhoods, any curious traveler will inevitably begin to speculate about the past. Was that always a church, a market, or a museum? Find the answers to all your musings in This Used to Be San Antonio. From the iconic Alamo that played an indispensable role in the state's and country's history to a mansion-turned-casino that was originally won in a card game, you'll get a tour of these places paired with stories that will inform and sometimes surprise. Along the way, you'll meet a colorful cast of characters who walked through those places in a totally different era. Local author and journalist Gil Dominguez brings an historian's eye and penchant for detail to this revealing look at his hometown. His fascinating descriptions will bring you a better understanding of San Antonio's history and culture, from major historical landmarks to prominent churches and military bases, all with a nod to the San Antonians who made these places important. Be transported through three centuries of history and find out what used to be in the Alamo City.

frost business banking: American Lumberman , 1906

frost business banking: San Antonio San Antonio Express-News, 2015-10-19 On Sept. 27, 1865, the San Antonio Express-News made its debut. And from the beginning, there was plenty to write about. The Civil War had just concluded, and it was only twenty-nine years after the fall of the Alamo. The Chisholm Trail, the high road of the Cattle Kingdom, began in San Antonio, which was the largest and among the most diverse cities in Texas. Spanish, German, and English were commonly spoken. The politics were lively and sometimes divisive, as the city was full of Unionist sympathizers in a state that was an anchor of the Confederacy. Today, 150 years later, San Antonio is America's fastest-growing big city and still making history. San Antonio is a richly illustrated compilation of more than 150 years of coverage on the history and culture of the city, as told in the pages of the San Antonio Express-News. From local politics to news stories on the military, energy, water use, the border and immigration that reverberate nationally and internationally, to the recent naming of San Antonio's five Spanish missions as a World Heritage site, the city has always been a place where the American identity is forged. This book tracks the city's past from 1865 until 2015 and is full of evocative pictures and compelling accounts culled from the Express-News archives. The collection celebrates companies that shaped the city, such as Frost Bank, which began extending credit in 1867; the Sisters of Charity of the Incarnate Word, founders in 1869 of what is now the Christus Santa Rosa Health System and subsequently their namesake university; and H-E-B grocery. This is not a standard civic history or a straightforward march through the decades. Loosely organized by theme, the stories in the collection are often quite often surprising, just like San Antonio itself. As anyone who has spent time in the city knows, this is a place with a soul.
