how do i start a childcare business: *Crawling Behind: America's Child Care Crisis and How to Fix It* Elliot Haspel, 2019 "I've totally washed away the dream of having one more child." "I had never intended to be a stay-at-home-parent, but the cost of child care turned me into one." "We had to pull our toddler out of his program because we couldn't afford to have two kids in high-quality care." These are not the voices of those down on their luck, but the voices of America's middle class. The lack of affordable, available, high-quality childcare is a boulder on the backs of all but the most affluent. Millions of hard-working families are left gasping for air while the next generation misses out on a strong start. To date, we've been fighting this five-alarm fire with the policy equivalent of beach toy water buckets. It's time for a bold investment in America's families and America's future. There's only one viable solution: Childcare should be free.

Instead, she ended up with an addiction, broken friendships, and the rubble of a toppled pyramid . . . scheme. **HEY, HUN: SALES SISTERHOOD, SUPREMACY, AND THE OTHER LIES BEHIND MULTILEVEL MARKETING** is the eye-opening, funny, and dangerous personal story of author Emily Lynn Paulson rising to the top of the pyramid in the multilevel marketing (MLM) world, only to recognize that its culture and business practices went beyond a trendy marketing scheme and into the heart of white supremacy in America. A significant polemic on how MLMs operate, **HEY, HUN** expertly lays out their role in the cultural epidemic of isolation and the cult-like ideologies that course through their trainings, marketing, and one-on-one interactions. Equally entertaining and smart, Paulson's first-person accounts, acerbic wit, and biting commentary will leave you with a new perspective on those "Hey Hun" messages flooding your inbox. "This book is a must-read for all women, especially those struggling with the deep ache to belong, be successful, or feel their self-worth. **HEY, HUN** is at once a cautionary tale, an educational service, and a vulnerable memoir. how do i start a childcare business: *Understanding Women's Entrepreneurship in a Gendered Context* Shumaila Yousafzai, Alain Fayolle, Saadat Saeed, Colette Henry, Adam Lindgreen, 2021-05-13 Women entrepreneurs are indeed a formidable force of economic growth and social change, though we still often question the how and why. For the readers who seek to understand the spectrum of gender influences in the context of entrepreneurship, *Understanding Women's Entrepreneurship in a Gendered Context: Influences and Restraints* widens the contextual focus of women's entrepreneurship and entrepreneurship research by providing powerful insights into the influences and restraints within a diverse set of gendered contexts including social, political, institutional, religious, patriarchal, cultural, family and economic, in which female entrepreneurs around the world operate their businesses. From recognition of a seventh-century businesswoman in Mecca to the construction of a gendered scientific Business Model Canvas, this collection of studies will inspire readers to think differently about theory, patriarchy, trade systems, adoption or transformation and strategies to create inclusive entrepreneurial ecosystems. In doing so, the contributing authors demonstrate not only the importance of studying the contexts in which women's entrepreneurial activities are shaped, but also how female entrepreneurs, through their endeavours, modify these contexts. This book will be of great value to scholars, students and researchers interested in women's entrepreneurship, entrepreneurial ecosystems, gender hierarchy and the transition to gender equality. It was originally published as a special issue of *Entrepreneurship & Regional Development*.

how do i start a childcare business: Gendering Entrepreneurial Ecosystems Marit Breivik-Meyer, Marta Lindvert, Anne-Charlott Callerstig, Dag Balkmar, Gry Agnete Alsos, 2025-02-11 The increased interest in entrepreneurial ecosystems often builds on the underlying assumption that entrepreneurs have equal access to resources, participation, and support. However, women are underrepresented in successful entrepreneurial ecosystems and a persistent gender bias continues to exist. This bias is reflected in assumptions about the typical entrepreneur. It is white American men that spring to mind, portrayed as entrepreneurial superheroes, associated with risk-taking and big money. That they are men is often taken for granted; with successful female

entrepreneurs seldom elevated in the same way. This illustrates how entrepreneurship is gendered, with implications for resource access and chances of success. The entrepreneurial ecosystem is not a level playing field. This book gives insights on how to remedy gendered challenges that pose problems not only for individuals but also for the entrepreneurial ecosystem. By analysing ways of making entrepreneurial ecosystems more gender- inclusive, the chapters collectively highlight the impact of gender dynamics on entrepreneurial ecosystems and introduce innovative methods for fostering inclusivity. With examples from around the globe, they emphasise the actors and factors that matter for gender- inclusive entrepreneurial ecosystems. The book is interdisciplinary and will appeal to scholars, upper- level students and policymakers interested in entrepreneurship and gender inclusivity.

Drawing on in-depth interviews with self-employed people, their partners and children, the report argues that self-employment is much more likely to be a household rather than an individual undertaking. It makes the case for the need to consider work-life balance in relation to the self-employed.
