home services business ideas: 48 Home Business Ideas Guide Manuela Willbold, Fernando Raymond, Introduction “Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma — which is living with the results of other people's thinking. Don't let the noise of others' opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary. “ - Steve Jobs, Co-founder of Apple Have you ever really taken the time to think about what you actually want out of your own life? It's not an easy task and many people don't make the effort as they probably feel it's not that important. But, if you're in a place where you're questioning your lifestyle and what you do for a living, then this should be the first step you take to identify what you really want to spend the majority of your time doing. At ClickDo Ltd., a digital marketing & SEO agency in London, the authors do what they love every single day and with this book they want to provide you with inspiration to find something you can see yourself doing in the near future. Fernando started ClickDo Ltd. because he asked himself that exact question. His vision was to lead a free life where he could work from anywhere in the world. He identified his passion for SEO and digital marketing and set up ClickDo Ltd. with only a few clients in the early days. Kasun joined him and together they went on the journey of building many more online businesses like web hosting company SeekaHost. Manuela felt an emerging passion for writing while working as a teacher and found ClickDo while searching for WordPress Training to start her own blog. home services business ideas: How To Do Business Without Your Own Money

Mofopofoluwa Joseph FRM, 2021-03-08 Without the entrepreneurs, societies would find it difficult to grow, transform, and develop. From developed economies, such as the United States of America, to emerging ones like Mexico, entrepreneurs like Bill Gates and Carlos Slim Helú have been instrumental in helping their countries excel and prosper. But history is also filled with people who have tried and failed at being entrepreneurs. More startups fail after ten years than succeed, which can prevent even the most optimistic people from making the foray into entrepreneurship. As concerned citizens, business leaders, and governments, we need to ask ourselves why entrepreneurship fails. Is it a character issue, knowledge issue, or environmental issue? Or is it a combination of all three? Mofopofoluwa Joseph explores why some succeed at entrepreneurship and why others don't in this extended commentary on why entrepreneurs are so essential. This book is especially relevant to those who want to go into business but have no money to do so as well as those in business struggling to expand. Step by step, you'll find out how to navigate the entrepreneurial journey without using your own money.
