mississippi business journal: **Aaron Henry of Mississippi** Minion K. C. Morrison, 2015-06-05 Winner of the 2016 Lillian Smith Book Award When Aaron Henry returned home to Mississippi from World War II service in 1946, he was part of wave of black servicemen who

challenged the racial status quo. He became a pharmacist through the GI Bill, and as a prominent citizen, he organized a hometown chapter of the NAACP and relatively quickly became leader of the state chapter. From that launching pad he joined and helped lead an ensemble of activists who fundamentally challenged the system of segregation and the almost total exclusion of African Americans from the political structure. These efforts were most clearly evident in his leadership of the integrated Mississippi Freedom Democratic Party delegation, which, after an unsuccessful effort to unseat the lily-white Democratic delegation at the Democratic National Convention in 1964, won recognition from the national party in 1968. The man who the New York Times described as being "at the forefront of every significant boycott, sit-in, protest march, rally, voter registration drive and court case" eventually became a rare example of a social-movement leader who successfully moved into political office. Aaron Henry of Mississippi covers the life of this remarkable leader, from his humble beginnings in a sharecropping family to his election to the Mississippi house of representatives in 1979, all the while maintaining the social-change ideology that prompted him to improve his native state, and thereby the nation.

mississippi business journal: The State of Health and Health Care in Mississippi Mario J. Azevedo, 2015-01-30 In this multidisciplinary book, the editor and contributors provide the most accurate and most recent information on health and health care in the State of Mississippi. They explain why the state finds itself in precarious health conditions and reveal the prevailing circumstances as the state debates a path toward a comprehensive health care system for its citizens. They show who has had access to good health care in the state and celebrate the heroes who struggled to provide health care to all Mississippians, and contribute to the debate on how the health care system might be restructured, reconstructed, or adjusted to meet the needs of all people in the state, regardless of race, ethnicity, socioeconomic status, and national origin. The issue of health disparities and socio-economic status leads to a relevant discussion of whether health and access to quality care are a right of all people, as the United Nations has proclaimed, or the privilege of a few who have the economic resources and the political clout to purchase first-rate care. The volume offers a clear understanding of health care trends in the state since the inception of its health system during the eighteenth and early nineteenth centuries up to the present and the prospects of transcending the obstacles of its own creation over the past two centuries. It likewise highlights the economic challenges that Mississippi, like other states, confronts; and how wise and realistic its priorities are in meeting the needs of its diverse populations, particularly racial and ethnic minorities.

mississippi business journal: *First Son* Keith Koeneman, 2022-12-22 Mayor Richard M. Daley dropped the bomb at a routine news conference at City Hall on Tuesday. With no prelude or fanfare, Mr. Daley announced that he would not seek re-election when his term expires next year. 'Simply put, it's time,' he said. New York Times, September 7, 2010 With those four words, an era ended. After twenty-two years, the longest-serving and most powerful mayor in the history of Chicago—and, arguably, America—stepped down, leaving behind a city that was utterly transformed, and a complicated legacy we are only beginning to evaluate. In *First Son*, Keith Koeneman chronicles the sometimes Shakespearean, sometimes Machiavellian life of an American political legend. Making deft use of unprecedented access to key players in the Daley administration, as well as Chicago's business and cultural leaders, Koeneman draws on more than one hundred interviews to tell an up-close, insider story of political triumph and personal evolution. With Koeneman as our guide, we follow young Daley from his beginnings as an average Bridgeport kid thought to lack his father's talent and charisma to his unlikely transformation into an iron-fisted leader. Daley not only escaped the giant shadow of his father but also transformed Chicago from a gritty, post-industrial Midwestern capital into a beautiful, sophisticated global city widely recognized as a model for innovative metropolises throughout the world. But in spite of his many accomplishments, Richard M. Daley's record is far from flawless. *First Son* sets the dramatic improvement of certain parts of the city against the persistent realities of crime, financial stress , failing public housing, and dysfunctional schools. And it reveals that while in many ways Daley broke with the machine politics of his father, he continued to reward loyalty with favors, use the resources of city government to overwhelm opponents, and tolerate political corruption. A nuanced portrait of a complex man, *First Son* shows Daley to be sensitive yet tough, impatient yet persistent, a street-smart fighter and

detail-driven policy expert who not only ran Chicago, but was Chicago.
