mind your own business shirt: Mind Your Own Business Sidney Harman, 2003-10-28 "The maverick's way of conducting business forswears the leader as commanding general; it rejects the practice of top-down, authoritative command. Rather, it proposes the leader as catalyst, conscience, and inspirer . . . The true leader sees his job as setting an environment in which new ideas can emerge that neither he nor any other individual anticipated. That leap of imagination, that moment of genuine creativity, can only be inspired by a leader who encourages exploration and shows a willingness to consider a totally new approach." --from Mind Your Own Business The corporate misdeeds of self-serving executives during the high-octane economy of the 1990s have forced many people to rethink the qualities that make a strong leader. For sixty years, Sidney Harman, the chairman and CEO of the world's premier manufacturer of high-end audio equipment, has stood apart from the crowd, building his business the old-fashioned way, by satisfying customers and, in doing so, making a healthy profit. His refreshingly employee-centric, bottoms-up approach to business is the secret of Harman International's continuing success. In Mind Your Own Business, Harman shares his visionary ideas about leadership, providing a welcome contrast to the bad behavior of business leaders recently dominating the news. Harman focuses on creating a culture of personal responsibility throughout his company. He likens his top management team to a jazz quartet that listens to and improvises with one another to create harmony. He stresses the need to do more for workers at every level because employees are the company's most valuable asset. At Harman International, he has established in-house classrooms to teach English, basic math, health, and music, and encourages his employees to pursue their potential. Now a hale and healthy eighty-five, Harman thinks that "an idea a day" is more important than the proverbial apple and that the key to a long life is a restless curiosity. In the bestselling tradition of Max DePree's Leadership Is an Art, Mind Your Own Business is a frank, no-nonsense guide for those who want to bring strength, vitality, and values to their businesses—and to their lives.

mind your own business shirt: Revolution 2.0 Wael Ghonim, 2012-01-17 The former Google executive and political activist tells the story of the Egyptian revolution he helped ignite through the power of social media. In the summer of 2010, thirty-year-old Google executive Wael Ghonim anonymously launched a Facebook page to protest the death of an Egyptian man at the hands of security forces. The page's following expanded quickly and moved from online protests to a nonconfrontational movement. On January 25, 2011, Tahrir Square resounded with calls for change. Yet just as the revolution began in earnest, Ghonim was captured and held for twelve days of brutal interrogation. After he was released, he gave a tearful speech on national television, and the protests grew more intense. Four days later, the president of Egypt was gone. In this riveting story, Ghonim takes us inside the movement and shares the keys to unleashing the power of crowds in the age of social networking. Well, try to understand what that really means to a single parent who is struggling with raising a child with autism spectrum disorder (ASD). Rarely do we hear about the reality that accompanies a struggle. The truth is that some parents would just rather not expose themselves or their child by being truthful about their reality on the spectrum. Exposure can open the door to judgment and ridicule, and no one wants to deal with that. On the other hand, exposure can help others acknowledge and understand your reality; it can also bring about acceptance. Exposing your reality will have people wondering who you really are. No one truly knows your strengths or weaknesses until your reality is exposed. This book is based on the reality of a single parent raising her beautiful autistic daughter. The writer's reality is not exactly what most people expect to read or hear. The reality will give readers a deeper understanding of what parents, families, caregivers, and most importantly, people with autism and ASD actually go through. The reality is not just a challenge; it can be embarrassing, upsetting, and cruel. However, the best thing you will discover is that there is a great degree of resiliency and love like no other. Read it, enjoy it, and respect it because it is more than you could ever imagine.
