This omnipresence of eating and drinking in our daily lives has led to a public fascination with foodways. This fictional narrative focuses on an exceptional Naval Officer whose devotion to duty, honor, and country entangles him in rogue missions tied to a top secret CIA covert operation. Always loyal to the chain of command, he perseveres to complete each mission, being told that he is saving American lives. Psychologically broken, his sense of right versus wrong is overshadowed by his dedication to duty. The main character, John Gruneburg, struggles to escape from memories of his past. Are his reoccurring nightmares associated with his violent past? Are the memories of past missions surfacing feelings of regret for what he had done? Or are his nightmares tied to his fear that his past will be exposed? What did he fear the most? Each time he went through the agony of introspective analysis, self-examining his own conscience, he ended with the same conclusion. It all came down to the fact that he must continue to conceal his past. His involvement with the CIA must remain hidden. Recognizing the government's investment in John's education and training,

polaris united airlines business class: Resolved to Become Chukudi V. Izeogu, 2025-04-23

Many people, young and old, have lofty ideas and dreams of who they would like to be, what kind of person to become, and anticipate becoming in life or the future profession to pursue and life purpose. Also, many people seem unfulfilled in their life goals and pursuits because of disadvantaged backgrounds and obstacles. A book that looks at persons who beat odds to succeed in their life pursuits can be inspiring. *Resolved to Become* is about the life journey of someone born and raised in a rural community in Southeastern Nigeria about the period of the World War II and became the person he is in life by divine providence. With a clear perception of his personal identity, upbringing in a Seventh-Day Adventist Christian home, self-discipline, hard work, and determination, he resolved to actualize his life dreams in his native country, Nigeria, and in the United States of America. The book portrays the life of Chukudi, who early in life had a clear understanding of his identity (who he is and could become) and resisted the pressures within his sociocultural community and environment and fellow youth, including friends that could have influenced him to settle for mediocrity and derailed his plans in life. Through many challenges, obstacles, and disappointments--including growing up in a typical rural and underprivileged community with limited choices and opportunities for Western education, interruption of university program for three years by war, illness, and irreparable loss of loved ones that he experienced in life--God alone brought consolation, blessings, and strength to go through the crucibles and unpleasant situations faced. Thus, the obstacles could only delay but not deter him from becoming what God ordained, a professional and emeritus professor outside his country of birth. In reflecting on the author's life journey, the book hints at the foundations of a life fulfilled, the value of hard work in the words of Henry Wadsworth Longfellow, The height that great men reached and kept were no attained by sudden flight but they while their companions slept they were toiling upwards in the night, and in the scriptures as penned by Solomon in the book of Proverbs 6-23, Go to the ants thou sluggard: consider her ways and be wise. Which having no guide, overseer or ruler, provided her meat in the summer and gathered her food in the harvest. The book provides many object lessons that would help young people to succeed regardless of the obstacles they may face. Also, it encourages people to not allow difficulties to limit them in their resolve to pursue their ambitions, to place their trust in God the Master Planner, and to cling to His promises in Jeremiah 29:11: For I know the plans I have

for you declares the Lord, plans to prosper you and not to harm you, plans to give you hope and a future. Claiming this promise, Chukudi was quite unwilling to let his age, environment, and race or other factors, including intrigues of colleagues, define him or hinder, in any way, his thirst for intellectual development, excellence in his work, and giving back to the society God's blessings and endowments to Him. Above all else, to learn to trust in God and learn to depend on His word.

polaris united airlines business class: Sentient Strategy Alan Weiss, 2023-03-23 No pre-pandemic strategy is effective anymore. None. Not for organizations large or small, for-profit or non-profit, domestic or global. Claims of a return to normal or the new normal are ridiculous. What we're facing is really a new reality, and that reality is the need for agile strategic decisions and pragmatic views of the future. That means that strategy formulation can be reduced to a few days and the view of the future can only be 12-18 months. This is the antithesis of Peter Drucker's approach to strategy, but his highly effective approach was developed at GM three quarters of a century ago. It's time to move on. Alan Weiss has developed an original and completely new approach to strategy which thus far has certified over 100 people globally, delivering this approach to scores of firms of all types in four countries. More than two dozen firms are using this approach. Sentient Strategy is based on two modern dimensions: awareness of the environment in which the organization exists and has influence, and consciousness of the impact of actions being considered. The old SWOT (strengths, weaknesses, opportunities, threats) approaches are currently equivalent to riding down the freeway on a horse. We must drop the hubris that has led us to believe we can see years ahead and anticipate what's coming. No one predicted the Internet No one predicted the
