positive quotes business: 26 Ways to Screw-Up in Business and How Not To William F. Fawcett, 2011-08-11 26 Ways To Screw-Up in Business and How Not To is a humorous, yet serious, business book. During a span of 50 years, the author discovered that there are 26 business commandments that you should never violate and if you do, its at your own risk. For example, Commandment # 4: Thou Shall Not Fish For Tunas in a Lake (never put probability before profitability). Commandment #8: Thou Shall Not Sell Texaco-Milk (problem with line-extensions). Commandment #18: Thou Shall Not Look Through a Keyhole With a Glass Eye (test, not guess). For nearly five decades Bill Fawcett has worked with hundreds of entrepreneurs and small-business owners. He is convinced that 96% of business mistakes are a result of breaking one or more of the 26 commandants set forth in this guide-to-success. This book is not about managing people; its about managing oneself. The number one determinant of your success is you! Youre the quarterback who gets all the glory when you win and all the blame when you lose. What if you could reduce the number of turnovers and interceptions? Wouldnt you want to know what mistakes you must avoid? Of course you would! This guide-to-success not only identifies what you must avoid; it offers prescriptions for doing it right.

positive quotes business: Daily Motivational Quotes Susan A. Enns, 2011-10-18 This is a collection of my favourite motivational quotes all in one place! Some are sales related, some are business related, but most are simply life related. They are in no particular order, just a random thought for each day of the year to help keep you on a positive note. If the old saying misery loves company is true, then motivation must breed happiness! I have spent my entire career, in one form or another, in sales. As such, I have dealt with rejection almost every day of my working life. Don't get me wrong, I have had a very successful career, but no sales person hears yes all the time. In fact, it is just the opposite. We hear no many more times than we hear yes. In sales, rejection is just something we deal with every day. When we let it get us down, it shows to everyone we meet, including our customers, our colleagues and our family. Essentially, our negative attitude becomes

our worst enemy. Even if you are not in sales, if you let your negative thoughts get the best of you, you are your own worst enemy too. Given my profession, I have been asked many times how do I stay positive? It can't be easy to keep the right attitude when you have to deal with rejection every day, right? Yes, actually, it can be. I stay positive because I choose to stay positive. I actually make a conscious effort to not be negative and to only be positive. I discovered long ago that a motivational quote always puts me in the right frame of mind. I started searching the internet for a daily quote that made me smile or motivated me in some way. Each day I did this, I found that I became better mentally prepared to tackle the day. More importantly, I was just happier! I started to share what I found online. I would put a daily motivational quote in my Facebook and LinkedIn statuses, I would blog about them, and I would tweet them on Twitter. Friends, family, and business associates all enjoyed them so much they started calling me The Quote Lady. More importantly, everyone's positive attitude seemed to be contagious. The more the motivation spread, the more everyone became motivated! That's when I decided to pull together a collection of my favorite motivational quotes all in one place, and this eBook was created. I hope you enjoy them as much as I do. Remember, your thoughts control your outcomes and you control your thoughts. So choose wisely! Thank you for your everyday contribution to our success! - Cyril K. It is really amazing for what you are doing in helping others stay positive and overcome their challenges, whatsoever small or big they may be - Parmod R. positive quotes business: Growing Start-Up and Scale-Up Activities into a Successful Business Marc Lamont, 2021-02-18 Today, more than ever, entrepreneurs create new start-ups based on original ideas or technical and scientific developments that often have their origins in an academic environment. Very often these entrepreneurs are also young people with little to no business experience, coming with their technical or scientific breakthrough ideas out of an academic environment. This fact makes it challenging for these start-ups to succeed. When one is used to an academic environment, one finds it challenging to adapt to a business environment. And having little to no real business experience only makes the process of adapting more difficult. While passion and drive are certainly present in start-ups, they can be counterproductive if not used in the right way. Even the large multinational companies were once small start-ups and scale-ups. That they are big and important today can only be explained by the fact that as start-ups and scale-ups they did the right things. For many years, the author has been very close to such situations and has been in charge of leading the growth of new business initiatives. His experience shows that business failure is more often the result of lacking the business skills to bring new products to market than a matter of the quality of the new products and developments. Growing Start-Up and Scale-Up Activities into a Successful Business is useful for every entrepreneur-founder-CEO of a start-up or a scale-up and, by extension, every person who has as part of his or her role the task of growing a new business into a successful business. This book is even for venture capitalists who want to help the companies in which they have invested. Unlike the many books that give advice on how to grow a start-up or scale-up into a successful business, which are very often written by people coming from an academic background or by people who have not themselves experienced the challenges of having to do this on a daily basis, Growing Start-Up and Scale-Up Activities into a Successful Business is based on forty-three years of experience with the author actively working on a daily basis to face the challenge of growing new businesses into success. What also makes Growing Start-Up and Scale-Up Activities into a Successful Business unique is that the principles put forward are illustrated by more than forty-five (anonymized) real-life cases. If you would like consulting advice with a hands-on approach from an author who has always had both feet planted firmly in everyday management at the international level for growing new business initiatives into successful enterprises, then Growing Start-Up and Scale-Up Activities into a Successful Business is the right choice for you.

positive quotes business: Combat Leader to Corporate Leader Chad Storlie, 2010-04-09 A business professional who is a 19-year U.S. Army combat veteran offers this one-of-a-kind book showing fellow veterans how to leverage their military experience and training to produce superior business and career results. Military training and experience provide a superb foundation for excelling in business. The executive search firm Korn Ferry discovered in a 2006 study that CEOs with military experience out-performed their civilian peers. Combat Leader to Corporate Leader: 20 Lessons to Advance Your Civilian Career outlines 20 lessons describing how veterans can apply their universal military training to succeed and excel in the business world. Combat Leader to Corporate Leader teaches Army, Navy, Marine, and Air Force veterans and non-military professionals how to apply successfully the skills that have made the U.S. military successful. The book is divided into four sections and aligned with military combat planning tools: (1) understanding the company and business environment, (2) planning a robust solution, (3) rigorous execution to meet the plan's goals, and (4) improving people and process for better results. Each section offers specific examples, advice, and formats that directly address the challenge of translating military experience into business skill sets. Among other issues, the book will teach vets how to showcase military experience and value to get hired, how to apply combat experience to a career in business, how to avoid the mistakes veterans commonly make in the workplace, and how to customize and translate their own unique military experiences to their business. At the conclusion of the book, veterans and non-veterans alike will have the skills to understand, plan, execute, and improve their careers and business ventures.
