pictures of business class: High-Class Moving Pictures Charles Musser, Carol Nelson, 2015-03-08 The entrepreneur of phonograph concerts and motion-picture programs Lyman H. Howe was the leading traveling exhibitor of his time and the exemplar of an important but until now little examined aspect of American popular culture. This work, with its numerous and lively illustrations, uses his career to explore the world of itinerant showmen, who exhibited all motion pictures seen outside large cities during the 1890s and early 1900s. They frequently built cultural alliances with genteel city dwellers or conservative churchgoers and in later years favored high-class topics appealing to audiences uncomfortable with the plebeian nickelodeons. Bridging the fields of American studies and film history, the book reveals the remarkable sophistication with which exhibitors created their elaborate, evening-length programs to convey powerful ideological messages. Whether depicting the Spanish-American War, the 1900 Paris Exposition, or British colonialism in action, Howe's cinema of reassurance had many parallels with the music of John Philip Sousa. Originally published in 1991. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

pictures of business class: Cinema Treasures Ross Melnick, Andreas Fuchs, 2004 More than 100 years after the first movie delighted audiences, movie theaters remain the last great community centers and one of the few amusements any family can afford. While countless books have been devoted to films and their stars, none have attempted a truly definitive history of those magical venues that have transported moviegoers since the beginning of the last century. In this stunningly illustrated book, film industry insiders Ross Melnick and Andreas Fuchs take readers from the nickelodeon to the megaplex and show how changes in moviemaking and political, social, and technological forces (e.g., war, depression, the baby boom, the VCR) have influenced the way we see movies. Archival photographs from archives like the Academy of Motion Picture Arts and Sciences and movie theater ephemera (postcards, period ads, matchbooks, and even a barf bag) sourced from private collections complement Melnick's informative and engaging history. Also included throughout the book are Fuchs' profiles detailing 25 classic movie theaters that have been restored and renovated and which continue to operate today. Each of these two-page spreads is illustrated with marvelous modern photographs, many taken by top architectural photographers. The result is a fabulous look at one way in which Americans continue to come together as a nation. A timeline throughout places the developments described in a broader historical context. We've had a number of beautiful books about the great movie palaces, and even some individual volumes that pay tribute to surviving theaters around the country. This is the first book I can recall that focuses on the survivors, from coast to coast, and puts them into historical context. Sumptuously produced in an oversized format, on heavy coated paper stock, this beautiful book offers a lively history of movie theaters in America , an impressive array of photos and memorabilia, and a heartening survey of the landmarks in our midst, from the majestic Fox Tucson Theatre in Tucson, Arizona to the charming jewel-box that is the Avon in Stamford, Connecticut. I don't know why, but I never tire of gazing at black & white photos of marquees from the past; they evoke the era of moviemaking (and moviegoing) I care about the most, and this book is packed with them. Cinema Treasures is indeed a treasure, and a perfect gift item for the holiday season. - Leonard Maltin Humble or grandiose, stand-alone or strung together, movie theaters are places where dreams are born. Once upon a time, they were treated with the respect they deserve. In their heyday, historian Ross Melnick and exhibitor Andreas Fuchs write in Cinema Treasures, openings of new motion-picture pleasure palaces that would have dazzled Kubla Khan 'received enormous attention in newspapers around the country. On top of the publicity they generated, their debuts were treated like the gala openings of new operas or exhibits, with critics weighing in on everything from the interior and exterior design to the orchestra.' Handsomely produced and extensively illustrated, Cinema Treasures is detailed without being dull and thoroughly at home with this often neglected subject matter. Its title would have you believe it is a celebration of the golden age of movie theaters. But this book is something completely different: an examination of the history of movie exhibition, which the authors accurately call 'a vastly under-researched topic.' - Los Angeles Times

pictures of business class: *Fight Pictures* Dan Streible, 2008-04-11 The first filmed prizefight, Veriscope's Corbett-Fitzsimmons Fight (1897) became one of cinema's first major attractions, ushering in an era in which hugely successful boxing films helped transform a stigmatized sport into legitimate entertainment. Exploring a significant and fascinating period in the development of modern sports and media, Fight Pictures is the first work to chronicle the mostly forgotten story of how legitimate bouts, fake fights, comic sparring matches, and more came to silent-era screens and became part of American popular culture.
