D., 2011-05 \$\$\$ The Entrepreneur's Guide To Start, Grow, and Manage a Profitable Business In his book The Right Stuff, Tom Wolfe describes what it took for the early test pilots to succeed: A career in flying was like climbing one of those ancient Babylonian pyramids made up of a dizzy progression of steps and ledges; and the idea was to prove at every foot of the way that you were one of the elected and anointed ones who had the right stuff and could move higher and higher and even-ultimately, God willing, one day-that you might be able to join that special few at the very top, that elite who had the capacity to bring tears to
