Curriculum Overview

The SCF business degree program is designed to equip students with essential skills and knowledge that are crucial for success in various business sectors. The curriculum is structured to provide both theoretical knowledge and practical applications through a blend of lectures, case studies, and hands-on projects.

Core Courses

The program includes several core courses covering fundamental business concepts. Students will typically engage in subjects such as:

- Principles of Management
- Financial Accounting
- Business Law
- Marketing Principles
- Microeconomics and Macroeconomics

These courses offer a well-rounded education, ensuring that graduates are knowledgeable about key business operations and strategies.

Electives and Specializations

In addition to core courses, SCF provides a variety of electives that allow students to tailor their education to specific interests and career goals. Popular electives might include:

- Digital Marketing
- Human Resource Management
- Entrepreneurship
- International Business
- Data Analysis for Business

These options not only enhance the educational experience but also help students develop niche expertise that can be beneficial in the job market.
