shelton state business degree: *Reinventing the Community College Business Model*

Christopher Shults, 2020-03-23 Community colleges were established to provide an accessible, affordable education and have largely met this charge. Access without success, however, does not benefit the student and traditional planning, operational and financial management, and infinite enrollment growth strategies have not produced positive student outcomes. The Great Recession, disinvestment in higher education, and increasing costs and competition have further exacerbated the inability to deliver better results. Community colleges need an operational framework structured for student success. The community college needs a redesigned business model. This publication breaks new ground by introducing the community college business model (CCBM), an intentionally designed operational management approach that provides a comprehensive approach to understanding students and meeting student needs by providing an exceptional educational experience. Supported by a fiscal management that targets finances to support student learning and success, the model guides the reader through the growth, development, and leveraging of the resources (human, physical, and intellectual) necessary for delivering a successful educational journey. The CCBM is designed to restructure community colleges for delivery of a student value proposition built on learning and success. The philosophical underpinning of the book is that student success is the ultimate measure of organizational effectiveness.

shelton state business degree: Conviction to Correction Takasha Stevenson, 2022-08-01

Three years after my incarceration, I had finally gone from surviving to living. I had become careful of who I allowed in my life because before prison, I was on others' tongue. And now after prison, I could see nothing has changed with some of those same people. I had experienced fake friends and family who were always questioning my change and talking against me because of my change. So God stepped in and changed my circle to change me because it was the same people, but they had different issues now. The less I revealed, the more people started to wonder about me. I had people come to me who drained me and then blamed me. But God once again had stepped in and revealed their character to me during small misunderstandings and miscommunications. I was now out of the dark and had no intentions of getting led into it again because the pain had hurt the same no matter who it had come from. It wasn't that the dark was scary to me; it was just an unfamiliar scenery because I never had to totally depend on anyone before. The only way out of the dark was to retrace my steps and social distance myself from family and friends so that I could work on my livelihood now as a convicted felon because I didn't know the road would be so rough. COVID-19 might have been bad for others but couldn't have come at a more appropriate time in my life. But through it all,

I have been blessed beyond all expectations. No matter what was thrown at me, I have conquered them all. So I think it's only fair to inspire others to challenge themselves and overcome their limitations and to break through whatever barriers they may have encountered. I've learned from my mistakes, and you can too.

shelton state business degree: State-Business Relations and Economic Transformation in South Africa and Zimbabwe Sinan Baran, 2023-06-12 In State-Business Relations and Economic Transformation in South Africa and Zimbabwe: Unfinished Transformation, Sinan Baran examines state-business relations (SBRs) in semi-peripheral South Africa and peripheral Zimbabwe after each country's transition to majority rule to address why SBRs are likely to either consolidate or fracture in post-transition communities. In both countries, the majority governments faced unresolved, post-transition divisions relating to race, inequality, and underdevelopment. Baran analyzes the liberalisation and indigenisation policy choices intended to address these areas that are impacting the mining industries in South Africa and Zimbabwe as case studies. Using comparative analysis and a Modern World-Systems lens, he argues that semi-peripheral countries are less susceptible to pressures from domestic and external powers than peripheral countries during periods of economic transformation. He further argues that China's significant political and economic presence in a peripheral country like Zimbabwe has more effect on SBRs than in a semi-peripheral country like South Africa.

shelton state business degree: Tennessee's John S. Wilder Rodney E. Stanley, P. Edward French, 2007 The Honorable John S. Wilder has served the constituents of Tennessee for over forty-years, and this historical accomplishment serves as the foundation of this work. In his political life, Lieutenant Governor Wilder has directly or indirectly impacted some of the most important administrative and public policy decisions over this period of time. Through archival document analysis and personal interviews with the Lieutenant Governor and many of his closest aids, political colleagues, and staunch opponents, the authors of this text have traced the history of John S.

Wilder's accomplishments and defeats from the late 1950s to the present. This triangulation of data collection and analysis helped the authors uncover forgotten political stories, and assisted in substantiating facts about many of the Lieutenant Governor's major political decisions. Highlighted in the text are Wilder's political triumphs over two coup attempts within the Democratic Party to oust him as Speaker of the Senate in the late 1980s. These efforts failed when the longest serving State Legislator in American history reached across party lines to maintain control of the second most powerful position in Tennessee state government. Now in his late 80's, Wilder is still determined as ever to continue leading the Tennessee Senate well into the twenty-first century. This book chronicles the political career of the man from Somerville.

shelton state business degree: Top of the Hill Manie Robinson, Tajh Boyd, 2019-09-17 When Dabo Swinney took over Clemson football during the 2008 season, the program was considered a good one that couldn't quite recapture the greatness of the Danny Ford era. But Swinney's simple formula—faith, family, forgiveness, fortitude, and fun—pushed the Clemson football program to the next level, taking the Tigers to 10 bowl games while capturing four ACC championships, three College Football Playoff appearances, and most importantly, two national championships. Sports columnist Manie Robinson traces Swinney's coaching ascension along the football team's return to glory, going behind the scenes of one of the country's powerhouse programs. Featuring the incredible stories of Clemson stars such as C.J. Spiller, Tajh Boyd, Sammy Watkins, DeAndre Hopkins, and Deshaun Watson, Top of the Hill is the definitive account of the Tigers' return to the top of the college football landscape.
