- **Keep It Simple:** A clean and uncluttered design is easier to read and more visually appealing.
- **Use High-Quality Images:** Ensure that any logos or images are high resolution to avoid pixelation.
- **Choose Readable Fonts:** Select fonts that are easy to read, even at smaller sizes. Avoid overly decorative fonts.
- **Include Essential Information:** Make sure to include your name, title, company name, phone number, email, and website.
- **Add a Call to Action:** Consider including a call to action, such as "Visit us for more information" or "Call today!"

Quality Considerations for Business Card Printing

Quality is paramount when it comes to business cards, as they are often the first impression potential clients or partners will have of you. Here are several factors to consider:

Paper Quality

The choice of paper greatly affects the look and feel of your business card. Heavier cardstock is generally preferred for its durability and premium feel.

Printing Technology

Staples uses advanced printing technology, which ensures that colors are vibrant and images are sharp. Be sure to inquire about the printing process used to produce your cards.

Finishing Options

Finishing options, such as matte, glossy, or uncoated, can enhance the look of your business cards. Each finish has its advantages, so choose one that aligns with your brand's image.

Proofing

Always request a proof before the full run is printed. This will help you catch any errors and ensure that the layout meets your expectations.

same day business cards staples: *How to Lose Your Shirt Starting a Mail Order Business* Joseph Lanciotti, 2002-08-26
From his own experiences in starting a small mail order business, the author has written this important, basic book. He has included some of the critical problems he encountered and overcame. During the difficult times when he made mistakes, he chose to accept it with good humor and as a learning experience which he passes on to the reader. He does not promise, 'to make you a millionaire', however, he explains how the mistakes he made could make you lose your shirt if you repeat them. He tells you about his successes and his failures with a few tears and a little boasting, and he warns you that losing your shirt can be very painful. The guidance he offers should prevent you from repeating some of the serious mistakes that he made. Starting small, with a tight budget, and little knowledge about the mail order business, the author developed press releases and advertising that sold many products including plastic spouts and orange peelers, garlic that had no odor, fake alarm panels, and books. A very popular product, The Seat Bag, was sold to thousands of Bird Watchers, Artists and other customers around the world. His press releases were used by The New York Times, other large newspapers, and the Associated Press. How he did this and who he met along the way will make you laugh as you learn.
