So wird Deutschland in den USA um seine leistungsstarken Familienunternehmen, vor allem die Hidden Champions, beneidet. Zudem bestehen deutsche Familienunternehmen im Durchschnitt deutlich länger. small business quote: **1001 Inspirational Quotes for Entrepreneurs** Jack Burkhart, 2010-02-20 For an entrepreneur, Entrepreneurship is a more than way of life; it is a religion. Amazingly there was, until now, no collection of inspirational quotes for entrepreneurs. (They always seemed to be a footnote in big books and were not selected by entrepreneurs, that's for sure!) As an entrepreneur myself, I had collected these quotes over the years to keep me cheerful. One Holiday Season, I decided to pull them all together into a book to give my entrepreneur friends for whom I couldn't afford to buy a present. Years later, I went to visit an entrepreneur friend I had lost contact with and he still had a copy of this book on his bedside table, with coffee rings on it. He said he liked to read a few quotations every evening just before he went to sleep. That's when I realized that other entrepreneurs like you might find these quotes useful. This is that book. This book will also be useful for anyone working with entrepreneurs and small businesses, both as a corporate gift and as a source of quotes of speeches. PS. This book, with 1001 quotes, combines the quotes in my other books *The Quotable Entrepreneur*, *Shake the Damned Tree!*, and *Fortune Favors the Bold*, each of which has 365 quotes and is available at \$9.95.

small business quote: Value-creation in Middle Market Private Equity John A. Lanier, 2016-02-17 Value-creation in Middle Market Private Equity by John A. Lanier holistically examines the ecosystem relationships between middle market private equity firms and their portfolio companies. Small business is the job creating engine in the US economy, and consequently is a prime target market for private equity investment. Indeed, private equity backs over six of each 100 private sector jobs. Both the small businesses in which private equity firms invest, and the private equity firms making the investments, face inter- and intra-company fiduciary leadership challenges while implementing formulated strategy. The architecture of each private equity firm-portfolio company relationship must be uniquely crafted to capitalize on the projected return on investment that is memorialized in the investment thesis. Given the leveraged capital structure of portfolio companies, the cost of a misstep is problematic. Individual private equity professionals are typically

members of multiple investment teams for the firm. Not only may each investment team have its own unique leadership style, but its diverse members have to assimilate styles for each team in which they participate relative to a specific portfolio company. Acquisitions and their subsequent integrations add exponential complexity for both private equity investment and portfolio company leadership teams; indeed, cultural integration ranks among the most chronic acquisition obstacles. Accordingly, the stakeholders of private equity transactions do well to embrace leadership best practices in applying value-creation toolbox best practices. The perspectives of both the private equity investment team and the portfolio company leadership team are within the scope of these chapters.
