swiss business lounge: Chinese of Africa. Stefan Asemota, 2025-01-09 As the plane took off, I was leaving more than just my father. I was leaving behind the last bit of hope I had When the grief of losing a loved one hijacks his life, Stefan finds himself on a raw, unfiltered journey home with a

father he barely knew, armed with nothing but questions and a desperate need to understand. *The Chinese of Africa* is a personal and sociopolitical memoir that explores Stefan's transformative journey through grief, cultural identity, and a critical examination of Nigeria's socioeconomic structure. Following the loss of his Swiss mother, Stefan accompanies his Nigerian father on a poignant return to his native land, seeking to bridge the emotional distance between them and understand the complex challenges facing contemporary Nigeria. His mother's death becomes the emotional catalyst propelling his journey of reconnection, both with his father and his father's homeland. Grief is portrayed not as a debilitating force but as a transformative experience that opens pathways to deeper understanding. He uses this personal pain to explore the African parenting culture that has traditionally made it difficult for sons to connect with their fathers. *The Chinese of Africa* is not just a travel memoir or a personal grief narrative but a sophisticated sociopolitical exploration of a man who shows the problems affecting his nation and his continent and how historical forces like slavery and colonisation continue to shape African societies. Stefan doesn't just describe problems affecting the Nigerian culture he tries to understand their roots and imagine workable solutions. He explains how complicated social rules make it hard for fathers and sons to truly understand each other. Growing up between two cultures gives him a unique view of Nigeria's challenges, and leveraging his personal stories and careful observation, he shows how family dynamics reflect larger social issues. Through his grief, hallucinations, poems, thoughts, personal experiences, and systemic analysis, Stefan offers a unique perspective about himself, his family, his mother, his nation, and Nigeria's complex societal landscape. He shows how personal stories can reveal larger truths about culture, identity, and growth. This book will hook you from the very first page to the last with its breathtaking, genre-defying exploration that shatters expectations. It is perfect for readers who crave memoirs from authors like Chris Whitaker, Alison Espach, and Leigh Bardugo.

Cautious budgetary decisions have resulted in large surpluses, creating a solid base for public expenditure programmes such as the National Development Plan, which is set to diversify the economy and boost employment. Although tapering the US Federal Reserve's quantitative easing programme is likely to

affect global liquidity and play a key part in growth prospects for 2014/15, the GCC economy is still forecast to expand by 4.1% for the year, and in Kuwait, where a handful of new PPP plans and deals are slated for 2014, there are promising signs that the year could be a landmark for economic growth and expansion.

swiss business lounge: The Report: Kuwait Oxford Business Group, 2015-09-28 Kuwait is one of the biggest players in the global energy market, with its proven oil reserves currently the sixth largest in the world. Although revenues from hydrocarbons account for more than 60% of GDP and 95% of exports, the country’s low production costs and sizeable fiscal reserves mean it is well positioned to cope with lower oil prices in the short term. This is clear from the government’s ongoing commitment to delivering projects outlined in the national development strategy, Kuwait Vision 2035. In the financial services sector, Kuwait continues to perform well, as a series of regulations put in place by the Central Bank of Kuwait in recent years have served to shore up the sector’s recovery from the global economic downturn.
