start dog kennel business: How to Start Run & Grow a Successful Pet Hotel Business Rebecca Floyd, 2021-06-14 Starting a Successful Pet Hotel Business Do you love animals? Are you looking for a career that is recession-proof and always in demand? Would you like to be your own boss? You should start a pet hotel business! I have been in the pet care industry for over a decade. I first started working as a receptionist in my uncle's veterinary clinic at age 18. I had owned dogs and cats in my childhood but never thought about making it a career. When I was thinking about college, I realized that becoming a vet technician was a viable option. When my uncle retired and sold his practice, I worked with the new vet as a tech for a few years. We found ourselves with frequent requests to board animals for the short-term. Usually, these requests came from pet owners who were our usual vet clients going out of town for a few days at a time. We took these dogs and cats in for mostly weekends and holidays. I realized that in my area, the need for quality pet boarding was essential. I started my own pet boarding business out of an old daycare building. The daycare had been closed down for a while, but it had easily convertible facilities for pet boarding. The building had a nearly commercial-sized kitchen and 4 different classrooms, each with its own attached bathroom. It also had a large fenced-in yard which used to have playground equipment and big indoor community space, presumably for assemblies or indoor playtime. A building originally built to house children during the day was easily converted to a building intended to house cats and dogs. My pet boarding business was born on a shoestring budget. In this book, I will show you how to start your own pet hotel from the ground up. This book comes from my personal experiences combined with research that I conducted while starting out years ago. I will show you everything I learned about how to start a dog or cat boarding kennel business (or doggy daycare) so that you can start your business on the right foot. You will learn: What a Typical Day at a Pet Boarding Hotel is Like What Potential Profit this Business Can Bring Why Choosing the Right Location is Important What

start dog kennel business: *A New Approach to Dogs and Dog Training* Theovoulos Koutsopoulos, 2024-05-16 This book presents a new and innovative concept in dealing with dogs: the human-canine synergy (HCS), characterized by a holistic nature and its differentiation from unidimensional terms expressing the affiliation of humans and dogs (Relationship, Interaction, Bonding). Related to the use and training by humans, it applies three main categories of dogs: a) the empathy/therapeutic individuals, which are dogs helping persons with empathy- or therapeutic needs; b) assisting/working dogs carrying out specific actions to aid or assist humans perform specific tasks; and c) the facilitating/inspiring dogs, which enable or improve various human activities, including classroom dogs for teaching and learning purposes in almost all educational subjects. Organized in three parts, chapters address the following needs: • The first section illuminates the concept of HCS as well as basic principles determining this synergy and consequently the process of training dogs (owners and professional trainers). Readers will understand the role of a dog's personality, behavior and especially temperament in its successful training. • In a scientifically documented way, the second part guides those who wish to engage in dog training (amateur or professional). It describes basic training forms within the HCS framework (obedience, protection, detection and classroom dog) and necessary steps for proper completion. • The third book part describes the business of dog training with multi-dimensional approach by emphasizing a good understanding and knowledge of interactions and the environment in which trainer, owner and dog typically operate. Overall, this work is a valuable read for anyone who deals with our four-legged companions for business or pleasure.
