tow truck business plan: Project Fatherhood Jorja Leap, 2016-06-07 A group of former gang members come together to help one another answer the question "How can I be a good father when I've never had one?" In 2010, former gang leader turned community activist Big Mike Cummings asked UCLA gang expert Jorja Leap to co-lead a group of men struggling to be better fathers in Watts, South Los Angeles, a neighborhood long burdened with a legacy of racialized poverty, violence, and incarceration. These men, black and brown, from late adolescence to middle age, are trying to heal themselves and their community, and above all to build their identities as fathers. Each week, they come together to help one another answer the question "How can I be a good father when I've never had one?" Project Fatherhood follows the lives of the men as they struggle with the pain of their own losses, the chronic pressures of poverty and unemployment, and the unquenchable desire to do better and provide more for the next generation. Although the group begins as a forum for them to discuss issues relating to their roles as parents, it slowly grows to mean much more: it becomes a place where they can share jokes and traumatic experiences, joys

and sorrows. As the men repair their own lives and gain confidence, the group also becomes a place for them to plan and carry out activities to help the Watts community grow as well as thrive. By immersing herself in the lived experiences of those working to overcome their circumstances, Leap not only dramatically illustrates the realities of fathers trying to do the right thing, but she also paints a larger sociological portrait of how institutional injustices become manifest in the lives of ordinary people. At a time in which racial justice seems more elusive than ever—stymied by the generational cycles of mass incarceration and the cradle-to-prison pipeline—the group’s development over time demonstrates real-life movement toward solutions as the men help one another make their families and their community stronger.

tow truck business plan: **Savoring Gotham** , 2015-11-11 When it comes to food, there has never been another city quite like New York. The Big Apple--a telling nickname--is the city of 50,000 eateries, of fish wriggling in Chinatown baskets, huge pastrami sandwiches on rye, fizzy egg creams, and frosted black and whites. It is home to possibly the densest concentration of ethnic and regional food establishments in the world, from German and Jewish delis to Greek diners, Brazilian steakhouses, Puerto Rican and Dominican bodegas, halal food carts, Irish pubs, Little Italy, and two Koreatowns (Flushing and Manhattan). This is the city where, if you choose to have Thai for dinner, you might also choose exactly which region of Thailand you wish to dine in. Savoring Gotham weaves the full tapestry of the city's rich gastronomy in nearly 570 accessible, informative A-to-Z entries. Written by nearly 180 of the most notable food experts--most of them New Yorkers--Savoring Gotham addresses the food, people, places, and institutions that have made New York cuisine so wildly diverse and immensely appealing. Reach only a little ways back into the city's ever-changing culinary kaleidoscope and discover automats, the precursor to fast food restaurants, where diners in a hurry dropped nickels into slots to unlock their premade meal of choice. Or travel to the nineteenth century, when oysters cost a few cents and were pulled by the bucketful from the Hudson River. Back then the city was one of the major centers of sugar refining, and of brewing, too--48 breweries once existed in Brooklyn alone, accounting for roughly 10% of all the beer brewed in the United States. Travel further back still and learn of the Native Americans who arrived in the area 5,000 years before New York was New York, and who planted the maize, squash, and beans that European and other settlers to the New World embraced centuries later. Savoring Gotham covers New York's culinary history, but also some of the most recognizable restaurants, eateries, and culinary personalities today. And it delves into more esoteric culinary realities, such as urban farming, beekeeping, the Three Martini Lunch and the Power Lunch, and novels, movies, and paintings that memorably depict Gotham's foodscapes. From hot dog stands to haute cuisine, each borough is represented. A foreword by Brooklyn Brewery Brewmaster Garrett Oliver and an extensive bibliography round out this sweeping new collection.
