the dummies guide to starting a business book: *Home - based Coaching Business* Vathani Ariyam, 2024-06-21 Introduction Home-based Coaching Business, I wrote this ebook to help people who like to learn new things through one-on-one coaching from their homes. You can meet me as a coach to learn one-on-one, giving you a personal connection. Here, you will learn about the business setup and an accounting method to prevent your business from failing. Many entrepreneurs need more accounting knowledge to learn or get professional help and know what to expect. They must impose a suitable system to keep their business at a better stage. I want to talk about myself. I was an accountant for a long time in the accounting industry. I had to leave my job in 2014 to help my partner. I have gone into online systems, eBooks, books, and accounting work for my clients and a coach. Besides, I used to teach math to many schoolchildren, and I also liked it because the kids who learned from me enjoyed it. I developed accounting methods for many businesses in the accounting field and helped the workers follow up on them. Therefore, I would be an excellent coach to assist you in studying what you would like to change for the better. My coaching plans will be: eBooks writing I have written 160 eBooks and love doing that; therefore, I am well-positioned to guide you through the process of writing an eBook. Are you an expert in something? Then, you can use that as

your topic for the eBook. What is your passion for writing? But remember, whatever you write must ensure your niche is marketable; otherwise, you will waste your time. Creating an online course There are massive opportunities for online courses because they help people learn from anywhere, help people who cannot go out to know, are working people, and are more cost-effective than attending lessons at a college to study. I have created 48 online courses with good content, videos for every lesson, visuals, infographics, quizzes, and practice tests. I can teach you how to create an online course. Accounting: You will study setting up a cash flow and budgeting, which are vital for anyone wanting to start a business. I am also a business plan writer who can help if needed. Therefore, my program will work towards your needs. If you want to write an eBook, join me or create an online course. I will help you know about the subject you are interested in from everything I have said. Further, I will use the PowerPoint illustration to help you gain more knowledge through slideshows. We can include the frequency of the sessions and how that will help you become a better individual in the sector you like to study. Before the session, you can discuss how and what you would like to learn from me. Further, I plan to offer free coaching lessons to encourage people to evaluate this program's worthiness.
