Madrid, 1957. Under the fascist dictatorship of General Francisco Franco, Spain is hiding a dark secret. Meanwhile, tourists and foreign businessmen flood into Spain under the welcoming promise of sunshine and wine. Among them is eighteen-year-old Daniel Matheson, the son of an oil tycoon, who arrives in Madrid with his parents hoping to connect with the country of his mother's birth through the lens of his camera. Photography--and fate--introduce him to Ana, whose family's interweaving obstacles reveal the lingering grasp of the Spanish Civil War--as well as chilling definitions of fortune and fear. Daniel's photographs leave him with uncomfortable questions amidst shadows of danger. He is backed into a corner of difficult decisions to protect those he loves. Lives and hearts collide, revealing an incredibly dark side to the sunny Spanish city. Master storyteller Ruta Sepetys once again shines light into one of history's darkest corners in this epic, heart-wrenching novel about identity, unforgettable love, repercussions of war, and the hidden violence of silence--inspired by the true postwar struggles of Spain. valencia business office: *Cocoa and Rockledge* Alma Clyde Field, Ada Edmiston Parrish, George Leland Harrell, 2008 The history of Cocoa and its bedroom community, Rockledge, falls into two time frames: the first is exploration and settlement; the second began in the 1950s when the Space Age began and drastic change ensued. It takes a mighty stretch of the imagination to leap from the founding and settlement of St. Augustine--a few miles north and a few centuries prior--to the incorporation of Cocoa and Rockledge. Of course, over the centuries, there were people in the area--hunters, fisherman, Native Americans, adventurers--but no true settlers until after the War Between the States, when people sought to make a new life in a new place. Geographically, the area featured in this volume includes Cocoa to the north, the Indian River to the east, Pineda to the south, and the St. Johns River to the west, the only river in the United States that flows north. Once famous for citrus, fishing, tourism, and mosquitoes, the space program and its service industries now dominate the economy of the area.
