wells fargo vs truist business account: *Absent Management in Banking* Christian Dinesen, 2020-01-27 Offering a historical analysis of management in banking from the Medici to present day, this book explores how banks can cause devastating financial crisis when they fail. Rather than labelling management as 'good' or 'bad', the author focuses on the concept of absent management, which can occur as a result of complexity. The complexity of banking, which intensified alongside the phenomenal growth of banks in the 20th and 21st centuries, resulted in banks that are mismanaged or, at times, even unmanaged. Drawing on business school case studies including Barings and Lehman Brothers, this book showcases how absent management in banking has caused crises, depressions and recessions, and how ultimately it will continue to do so.

But the systems were never truly dismantled in our country, leaving artifacts of injustice that continue to affect every aspect of life for Black and Brown Americans. Many of us feel overwhelmed by the problem, unsure how we can make a difference. Yet God calls the church to stand firmly committed to racial reconciliation—and for each one of us to make choices that lead to healing. In *Brown Faces, White Spaces*, Latasha Morrison—a speaker, bridge builder, and champion for unity—explores nine aspects of American life where systemic racism still flourishes, including education, healthcare, the justice system, entertainment, and the church. Through story, historical context, and present realities, Morrison looks at what it means to recognize and confess the truth about inequities in the system (preparation), commit ourselves to changing the system (dedication), and move into true freedom as a society (liberation). Drawing on rich sociological insights, as well as experiences of family and friends and from her own life, Morrison asks: How does knowing our country's history make a difference in how we live today? How does Jesus's divine act of reconciliation on the cross lead to human liberation from oppression? How might we create systems for all to flourish? This honest, hope-filled book shows us how we can reform historically white spaces and create systems that work for the good of all. Join the bridge-building movement that is listening, learning, and working together for equity in every aspect of our lives. Includes questions for personal reflection and group discussion.
