work from home internet business: *Saving Time and Money for Work at Home Entrepreneurs* Max Editorial, 2023-01-30 LIGHTNING PROMOTION "*****" Time is of the Essence! I've heard people say that the main reason that they want to work at home is because they can work only when they want to work. It IS true that you can set your own work hours when you work at home but it does NOT mean that you don't have to have set work hours. A 'hit or miss' work schedule...or rather, the lack of any work schedule at all, simply will not work. Time is of the Essence! YOUR time! Working at home can be a very, very good thing. You can be at home to see the kids off to school and be at home when they get home. You can put a load of laundry in and it can run through the cycles while you are working. You can have dinner cooked before a hungry family descends like a flock of hungry buzzards. All of those things are real perks that you automatically get when you work at home. Working at home can also be a very, very bad thing if you do not plan your time well and if you do not set up a work schedule that you and your family can live with. When you work at home, time really is of the essence. You must make very good use of the time that you spend working. If you are not efficient in accomplishing the tasks that must be done, you will either spend too much time working or you will fail miserably at your work at home job or business. You must set up a work schedule for yourself when you work at home and then you must enforce that work schedule for yourself and insist that your family and friends also adhere to your work schedule. A job out in the brick and mortar world does two things; (1) It provides a structure for your day and (2) it tells your family and friends that your time is spoken for during your working hours. You will notice that both of these things that a regular job provides both relate to your TIME!
