This book analyses the causes for these unethical activities and interprets important verses from The Bhagavad Gita to show business executives and leaders how to lead ethically for the greater good of all stakeholders and society. As a remedy to avoid future scandals, the author points to several ethical directions, and the principle of Dharma, mentioned in The Bhagavad Gita by Lord Krishna, a major deity in Hinduism, who is considered Dharmātman (one who imbibes the Dharma). Written in conversation style using an executive education scenario, this book examines real world cases in various sectors like education, medical, non-government organizations (NGOs) and retail using the directions of the Dharmātman.
