**28 summers movie netflix:** *Netflixed* Gina Keating, 2012-10-11 Netflix has come a long way since 1997, when two Silicon Valley entrepreneurs, Marc Randolph and Reed Hastings, decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch-day traffic in April 1998 crashed their server and resulted in 150 sales. Today, Netflix has more than 25 million subscribers and annual revenues above \$3 billion. Yet long-term success-or even survival-is still far from guaranteed. Journalist Gina Keating recounts the absorbing, fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video-store behemoth Blockbuster, transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon, and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals, and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success, Netflix is still a polarizing company. Hastings is often heralded as a visionary-he was named Business Person of the Year in 2010 by Fortune-even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.

**28 summers movie netflix:** *Selling Sexy* Lauren Sherman, Chantal Fernandez, 2024-10-08 The story of how Victoria’s Secret skyrocketed from a tiny chain of boutiques to a retail phenomenon with more than \$8 billion in annual sales at its peak—all while defining an impossible beauty standard for generations of American women—before the brand’s tight grip on the industry finally slipped Victoria’s Secret is one of the most influential and polarizing brands to ever infiltrate the psyche of the American consumer. Almost right at its start in the late 1970s, the company developed a cult following for its glamorous catalogs. Back then, shoppers had few alternatives to the stodgy department stores that sold most of the nation’s intimate apparel. By 1982, the founders of Victoria’s Secret avoided bankruptcy by selling to Les Wexner, the fast-fashion pioneer behind the Limited, whose empire of mall brands would go on to dominate American retail for forty years. Wexner turned Victoria’s Secret into a multibillion-dollar business, and the brand’s cultural influence soared thanks to its airbrushed advertisements and annual televised fashion show, which drew millions of viewers each year. Its supermodel spokeswomen, the sweet but sultry Angels, personified a new American beauty standard. But as our definition of beauty expanded, Victoria’s Secret failed to evolve and reached a crisis point. Meanwhile, Wexner became increasingly known for his complicated relationship with sex trafficker Jeffrey Epstein, his former financial adviser and confidant. *Selling Sexy* expertly draws from sources within Victoria’s Secret and across the industry to examine the unprecedented rise of one of the most innovative brands in retail history—a brand that today, under new ownership, is desperately trying to seduce shoppers again.
